Keep digging and reporting all the findings. No wonder the departed thieves are hiding from the media. The ones still employed should be suspended or terminated. The next calls must come from the State and local authorities including criminal charges and courthouse appointments to show up for.

This long time corruption was facilitated by weak, stupid Board members for years. The local media was sleeping on duty as well. Covering up?

Now the MCSD is dealing with this \$2.2M scandal of the worst corruption in the history of the public sector in Mason City. Greed combined with thieves being let run the institution unchecked by elected weaklings produced this disgrace in Mason City.

Now it's time to enforce the laws to the max against these criminals. The existing School Board must demand it and demand the legal actions that will bring restitution of this \$2.2M and trials that bring justice down on the guilty. Incl. prison time.
