Mr. Richard N. Dunn,

I am writing you to PLEASE do NOT continue the plea deal to not have Dean Hilpipre serve any time for his sickening and lascivious acts to that little girl. Accepting the plea deal is just not acceptable in the eyes of the public, not to mention the victim (that sweet little girl) and the family. To give him 5 years probation and no time would be a slap on the wrist and would be major set-back for justice for the victims in child molestation. This would also give Hilpipre and other would-be molesters a green light to go forward with lascivious acts with children, knowing they would only get a slap on the wrist. This would be a HUGE SHAME on the judicial system. So PLEASE do not go forward with this plea deal! This is just NOT acceptable!

Thank you,
