

Your Honor:

I am writing in regards to my dad, David Bemis. I am asking that you give my dad probation instead of jail time. I am worried that if he does go to jail that my depression will worsen. My anxiety will also get worse as I will be worrying about my dad and what is happening to him. It would also not be good as I would not be able to see him if he were to go to jail. This would also make my anxiety and depression worse.

My dad is supportive of me and always there for me when I need him. He is a good listener. He calms me down when I am freaking out or having a panic attack. He is also able to do this when my depression is worse. I know in my heart that my dad is a good person. People make mistakes and my dad made one. He shouldn't spend time in jail for one mistake.

Sincerely, *Cris Bemis*
