Subject: Emails

Dr. Micich,

I wanted to provided written documentation of our conversation.

At the Direction of President Arndt I called to request all emails related to the China deal. Not only those with Mr Pinkham but also with partnering schools and anyone else you may have been in communication with. Please provide all E-mails even including those you may feel are insignificant.

I requested 24 hours to provide and you suggested we could have them at the meeting. I did relay to you I would like to have them prior to the meeting which would allow me time to review them prior to the closed session. 2pm will be a good compromise.

Feel free to send them electronically or I can come and pick up a digital copies. You did tell me you would send me an email later today informing me of your progress. I look forward to hearing from you.

Respectfully,
Lorrie Lala
