Splendid sisters: PBS breathes new life into Louisa May Alcott's 'Little Women'

By K.A. Taylor
TV Media

A brief channel surf quickly reveals that women on television are still all too often depicted as jealous, fighting frenemies. Often generic and one-dimensional, these portrayals detrimentally serve to convince the world — and more importantly, young women — that to be feminine is to lack rationality and depth.

Fortunately for anyone looking for a more uplifting depiction of young womanhood, PBS has teamed up with the BBC to bring to life a new miniseries adaptation of Louisa May Alcott's classic novel "Little Women." How fascinating it is to consider that a series based on a 150-year-old novel could deliver a more honest and complex representation of women's relationships than we see in so much modern-day fare. The latest "Masterpiece Classic" offering, "Little Women" premieres Sunday, May 13, on PBS.

"Little Women" stays loyal to Alcott's work, while interjecting ample doses of humor and empowerment. Set amidst the American Civil War, the story provides a glimpse into the lives of the four March sisters as they grow from girls to young women under the watchful, loving care of their mother. The family, once well-to-do, now lives in poverty. Relocated to a new portion of a Massachusetts community, these little women find themselves not just penniless but also fatherless, as the patriarch has been called off to war. Left to fend for themselves, the March women are eager to prove that they're more than capable of doing so.

Each sister is undeniably a March, yet entirely unique. Meg March (Willa Fitzgerald, "Scream: The TV Series") is the eldest of the four and quite naturally adapts to a matriarchal type of role, quite satisfied with the prospect of a domestic life. Second eldest, Jo (Maya Hawke, "Ladyworld," 2018), is full of bold ambition, often labeled a tomboy due to her interests and hopes to be a published writer one day. Beth (Annes Elwy, "Philip K. Dick's Electric Dreams"), the third daughter, is quite shy and has a penchant for music. The youngest March, Amy (Kathryn Newton, "Lady Bird," 2017), is the most artistic, though easily swayed into a state of vanity.

Maya Hawke as seen in "Little Women"

Initially, these four girls may seem fairly set in their ways, somewhat stereotypical and quite contrary to one another. As the girls develop, however, it becomes clear that there are multiple dimensions to all of their personalities, and assumed predictability is quickly discarded.

The casting of "Little Women's" leading ladies in this latest adaptation blends fresh, new faces with a healthy dose of well-established talent. If newcomer Hawke seems familiar, it may be in large part due to the success of her parents. The actress is the daughter of Uma Thurman ("Kill Bill: Vol. 1," 2003) and Ethan Hawke ("Training Day," 2001), two beloved actors whose passion for the craft seems to be hereditary.

Hawke has a lot of hopes for this interpretation of Jo, which she expressed during a news release interview for "Masterpiece." She longs for audiences to notice Jo's imperfections and notes that she did her best to express "the parts of [Jo] that she would feel insecure about" and to "illuminate her less perfect qualities," trying to stray from the perfectionist persona for which the character is typically known.

The two elder March ladies of the miniseries are portrayed by the theatrical and cinematic favorites. Matriarch Marmee is played by the acclaimed Emily Watson ("The Book Thief," 2013), who began her career heavily invested in feature film roles, but who has been racking up more and more TV series parts since 2011. Surpassing all of these talented ladies, however, is the legendary Angela Lansbury ("Murder She Wrote"), who steps into the fiercely critical shoes of Aunt March.

Since 1868, when "Little Women" was published, the story has endured countless adaptations in various formats. Be it film, television, musicals, operas, stage plays, web videos or audio dramas, it's clear that the authenticity felt in this novel translates well to all mediums. The story was first adapted for the silver screen in silent format in 1917, with the most recent big-screen adaptation currently in production. When it comes to television, BBC has developed four miniseries of "Little Women," the first airing in the 1950s as a live production. Anyone with siblings, but especially those of us who are sisters and have sisters, find deep familiarity with the relationships and conflicts depicted, so it's no surprise that Alcott's work continues to remain relevant and reproduced.

Driven by authenticity and truth to the period within which the tale is set, "Little Women" promises to be a well-loved representation of the classic novel. The cast, crew and director have painstakingly worked to recreate Alcott's world, placing emphasis on natural beauty and individuality over spectacle. In a promotional interview for the miniseries, director Vanessa Caswill expressed how important it was to "[tell] a truthful story" — one that would "empower the women in it by not making them dollies, by making them just pure and beautiful."

With women continuing to push for their unique voices and stories to be heard, perhaps there is no better time than now for a retelling of Alcott's beloved novel. Embrace feminine strength and growth when "Little Women" premieres Sunday, May 13, on PBS.

Black Panther

Isolated and hidden from the world for centuries, the nation of Wakanda has grown rich and technologically advanced, thanks to its deposits of vibranium, an incredibly rare metal. After his father's death, T'Challa (Boseman) returns to Wakanda to take the throne and keep the kingdom united as Black Panther, a hero given supernatural strength by a mysterious heart-shaped herb and a suit made of vibranium. However, when an exiled Wakandan named Killmonger (Jordan) arrives on the scene with a message of revolution, Wakanda's future — and that of the entire world — hangs in the balance.

Sharpen those knives

New judge incoming in the latest season of 'Chopped'

By Andrew Warren
TV Media

You can say this about "Chopped": it has a formula that works and it's stuck with it for a long time. It makes perfect sense. After all, if it ain't broke, don't fix it.

Of course, the super popular cooking competition show hasn't remained static for all these years. Since premiering way back in 2009, it's had a few nips, tucks and tweaks, and the Tuesday evening Food Network series has another little tweak coming up: a new judge with a very big name. Although the series has always had a stable of rotating judges (with guests frequently mixed in for variety), including chefs Alex Guarnaschelli, Marc Murphy, Chris Santos, Marcus Samuelsson and Amana Freitag, it's never had the likes of Martha Stewart before, who joins as a recurring guest judge in the Tuesday, June 5, episode.

Before then, though, there's still lots of classic "Chopped" fun to be had. In this week's episode, airing Tuesday, May 15, host Ted Allen ("Queer Eye for the Straight Guy") reveals some intriguing mystery ingredients in the baskets — ingredients that, as always, the competing chefs must feature in their dishes.

The first round's basket includes beautiful plums alongside a classic Asian food, but in an innovative form. For the entrée round, the baskets contain a cut of meat that's notoriously tough and a somewhat unusual mayonnaise-based product. When it comes time for dessert, the remaining contestants find a sugary breakfast cereal item that's sure to surprise.

So what is it about "Chopped" that's made it so appealing for so long? Perhaps it's just the simplicity of it all. Barring the occasional special episode, it's just four professionals doing what they do best: cooking. They're all given the same four mystery ingredients, which run the gamut from super common to super bizarre. Their time is limited, but outside of that, it's just pure cooking competition while the host and judges look on and pass commentary.

"Chopped" has always been good fun, and it's showing no signs of slowing down, with Martha Stewart joining as a recurring judge next month. The latest season airs Tuesday evenings on Food Network.

Hollywood Q&A

By Adam Thomlison
TV Media

Q: I am a big fan of "Cold Justice" and was happy to hear that Oxygen had picked up the series. I am unhappy, though, that so far the station has just been airing reruns, with an occasional new show. I know it stopped airing initially due to a lawsuit. What's the deal now?

A: There are a couple of "deals" going on with "Cold Justice's" new place on Oxygen, but neither is anything to worry about — the show's in good shape.

Your point about only getting "occasional" new episodes is a fair one — Oxygen is airing it on a somewhat more irregular schedule than it had on TNT, its previous channel, sometimes letting weeks pass between episodes.

It's also airing fewer of them. TNT aired three seasons of the show before canceling it in 2015, and the third season was a whopping 24 episodes long. The show's

fourth season, which aired last summer on Oxygen, had just 10 episodes.

You shouldn't take that as a lack of commitment from the network, however. Kelly Siegler, the crusading former prosecutor who is the star of the show, announced back in February that she was "hard at work" on new episodes for a fifth season.

Indeed, "Cold Justice" was something of a flagship show for Oxygen's big rebranding exercise last year. Having began life as a women's network, it took a hard turn last year toward true crime,

and the revival of "Cold Justice" was one of the first new-brand shows it announced.

Q: Are the leads from "Boy Meets World" and "The Wonder Years" related? They could be brothers but there would have to be a big age gap.

A: There's less of a gap than you think — there are only four years between brothers Fred and Ben Savage.

If that seems surprising, it might be because of the nature of their most famous shows. Fred Savage was 12 years old when he debuted

in the hit family drama "The Wonder Years," the show that made him a star. And though the show premiered in 1988, it was actually a nostalgia piece set in the '60s.

In terms of timing, his little brother Ben's career arc was pretty similar: he launched his star-making vehicle when he was 13 years old. However, "Boy Meets World" was aimed squarely at kids and not their parents, and was set very much in the present day.

They were both coming-of-age shows, and so they played a bit of a trick on us, as we watched these

actors "come of age" seemingly decades apart.

We also haven't had many chances for direct comparison. Despite their similar career paths, Fred and Ben have only been on screen together three times. Fred guest starred in "Boy Meets World" once, Ben appeared in "The Wonder Years" once, and Ben had a small part in Fred's big-screen comedy "Little Monsters" in 1989.
