ANACORTES
2025-2027 On-Call
Consultant Services
Roster
Request for
Qualifications
Chapter 53.19 RCW
(Personal Services)**

The Port of Anacortes (Port) is currently requesting Statements of Qualifications (SOQ) for various categories of personal services (Chapter 53.19 RCW).

The Port anticipates a variety of projects over the next three years that may require the professional or technical expertise of a consultant to accomplish, including public work projects at its existing facilities.

The purpose of this solicitation is to develop a list of qualified consultants who may meet the requirements of the Port for providing consulting services related to port-wide projects on an as-needed/on-call basis, and for which each individual project the consultant fees are estimated to exceed fifty thousand dollars. SOQs shall be kept on file for a three year period. The Port shall contract for on-call consulting services on a project-specific basis by issuing individual Task Orders under a base personal services agreement.

For the full Request for Qualifications (RFQ), please visit the Port of Anacortes website at www.portofanacortes.com/contracting and select the Contracting Opportunities tab. A copy may also be requested by calling (360) 293-3134. The full RFQ provides information on SOQ requirements including evaluation criteria, submittal deadline & location, selection process and contract award, and general information.

Proposals must be received by the Port of Anacortes before 4:00 p.m. on Friday, February 14, 2025.
