

LEGAL NOTICE

The City of Stanwood offers a utility rate reduction program for low-income tenants (62 and older and/or disabled) whose utility costs are included in rent or paid separately to a property owner, agent, homeowners association (HOA), or other third party — typically in apartments or condominiums with shared meters. Approved applicants will receive an annual rebate in the form of a check. Verification of lease terms and proof of income are required for approval. More information as well as application for the Utility Bill Rebate Program can be found on our website, www.stanwoodwa.org or by calling 360-629-2181 Option 1.
