

Searching for a new team member **with CDL and Experience** **in Truck Driving**

We are a dairy farm that works over 5,000 acres of ground growing alfalfa and corn to feed our own herd. Comfort in operating heavy equipment and the love for farming would be a plus. The ideal employee can work well with others but also be a self-starter and work independently. We will provide all the training for the job.

We have a new state of the art shop, great equipment, and good people to work with. We offer a matching IRA, health/dental options, paid time off, competitive wage based on experience & paid holidays.

Please apply to Laura at **585-355-3589**
or **schumacresdairy@gmail.com**
