Good evening Garry,

I understand your disappointment, I really do. However I did explain the process in detail and had a very limited number of positions to appoint and reappoint commissioners who are already serving. I was very open and transparent when I explained the process in detail and it was very fair. I wish I had more open seats, however I did not. Only a couple of seats are open in any given year for the council to consider. I and Prior Mayor Lou Martinez, worked several hours and days to insure each applicant received the same consideration.

Having said that, I am very honored that you and so many others did apply and participated in the interview process. Our community is citizen driven. I encourage you and others to continue to reach out to the city, community organizations and volunteer organizations to insure that together Hanford continues to be a city that many more people will choose to call home.

Please don't stop helping those in our community that needs help. I consider you and the other citizens that applied to be the type of leader that Hanford so seriously needs to keep our city safe, thriving , and growing. I am very proud to call you a friend and fellow Hanford resident. I truly do appreciate your past service to our community and future endeavors. Keep up the good work.

Sincerely,

Gary Pannett Mayor of Hanford

Hi Gary,

I wanted to say I was very disappointed of not be selected on the planning commission even though I have 2 years exp working on one with the county with planning and developing for general update on the county level and I tried to apply

for the city general update committee too which you shot me down on that one too. so it seems that if you want to apply on a commission you either need a degree or experience or certificate to get on a commission if that's the case then you guys need to change and inform the public that wants to serve on a commission with no experience they wont have a chance at all sense this has happen to me 9 times as of now. so in future openings your applications should be changed sense people with those can apply that has a degree, experience, certificate only and others like myself can be denied join a commission.

Garry Curtis
