

ATTENTION PET OWNERS!

&

Have combined to bring you an even better Veterinary experience

Dear Friends and Clients of Valley Veterinary Hospital,

On June 5, 2019, Dr. Bruce Armstrong (owner of Helena Veterinary Service), purchased the Valley Veterinary Hospital Small Animal Practice. I am pleased to introduce you to this compassionate veterinarian who has practiced in our area for about two decades. He and his caring staff are relocating to Valley Veterinary Hospital and the two well-trained teams are merging.

This is bittersweet for me. I've laughed and cried with many of you over the years. Your animal companions and families are important to me. Valley Veterinary Hospital would not be the great animal medical center it is without you. My hospital and Dr. Armstrong's have shared call for nearly a year so you may already have met him or his Associate Veterinarian, Dr. Dawn Reisinger. Happily, I plan to continue seeing small animal patients at Valley Veterinary Hospital long term. For Equine Clients, I am available to see your horses outside of Valley Veterinary Hospital. You may email me at DrTiaDVM@aol.com or text (no cell service where I live) 406-431-8898 for appointments.

Please do keep in touch!

Sincerely,

Tia Nelson, DVM.

Bruce D. Armstrong, DVM.
