Internal medicine providers offer comprehensive care for adults age 18 and older. Providers specialize in understanding your health risks and will establish a relationship with you to treat your whole person over time to keep you healthy.

Look to your internal medicine provider for:
- Expertise at diagnosing illnesses, from common to complex.
- Help managing chronic illnesses such as diabetes, hypertension, asthma, and others.
- Wellness support and information.
- Help connecting you with other specialists when you need it.

To schedule an appointment with Dr. Andrew Anderson or Anna Denton, call (406) 731-8394, or schedule online at Benefis.org.

Gastroenterology providers offer comprehensive care to treat a wide range of digestive and gastrointestinal conditions.

Look to your gastroenterology provider for treatment of:
- Bile duct and gallbladder conditions, including gallstones and infections.
- Colon disorders, such as Crohn’s disease, incontinence, irritable bowel syndrome (IBS), polyps, and ulcerative colitis.
- Esophageal and swallowing disorders.
- Liver diseases, including cirrhosis and hepatitis.
- Pancreatic disease, including pancreatitis and pancreatic cysts.
- Stomach problems, including stomach ulcers and polyps.

Mary uses the latest approaches to determine the sources of discomfort and develop a customized treatment plan to help you feel better. To schedule an appointment with her, call (406) 731-8394.
