Dear ,

You won't believe the propaganda put out by the Environmental Protection Agency (EPA).

They have unleashed a political cartoon that has conservatives in an uproar.

You see, the EPA is using your tax-dollars to defend and even promote the Global Warming scam.

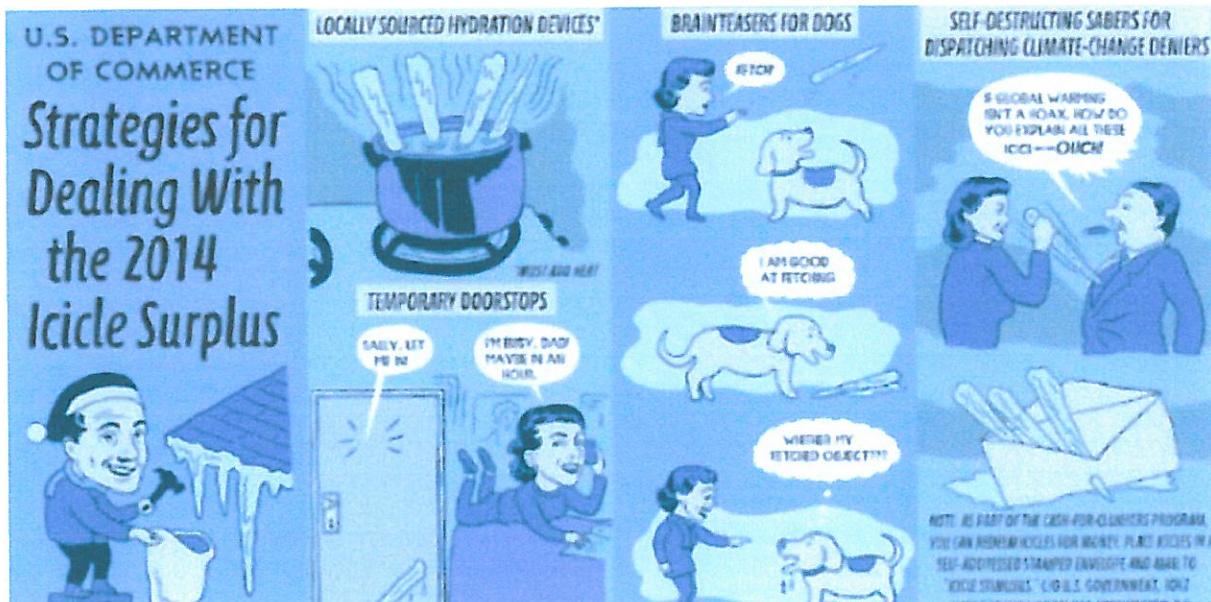

I don't know about you, but I sure as shooting don't think the EPA has any business trying to convince average Americans to buy into the UN's "climate change agenda."

That's why this animation is particular offensive.

The resolution on the graphic isn't the best, so if you can't read it let me spell it out for you:

The EPA is encouraging Global Warming alarmists to KILL people that disagree with them.

In fact, they think it's funny.

Do you think it's funny for the government to encourage the murder of people who don't buy into politically driven agendas?

I didn't think so.

But this is the kind of antagonism that ATP is standing against.

Right now we are preparing a petition to demand that Congress clean house in the EPA.

Federal bureaucrats have no business picking winners and losers in political struggles.

They do not and should not have the responsibility to *change the minds* of average Americans on controversial issues.

And they absolutely should not be wasting yours and my tax-dollars to **joke about murdering Americans** whose only "crime" is taking a rational view of environmental conservatism.

But nothing will change unless someone stands up to their bullying.

That's why I hope you will continue to support American Tradition Partnership (ATP) as we rally opposition to the EPA and all of Gang Green.

Sincerely,

Chris Michael
Communications Director,
American Tradition Partnership
