### MONTANA NATURAL RESOURCES YOUTH CAMP

**July 13-18**

We invite youth ages 14-18 and 13 (if graduated

from eight grade) to spend one week in the rustic setting of Lubrecht Experimental Forest east of Missoula and learn about Montana's natural resources. The accommodations are comfortable, the

food is great, and the instruction and friendships are the best.

Campers learn about forests, streams, soils, geology, range land, wildlife, and recreation, and spend a half-day rafting the Alberton Gorge of the Clark Fork River. In between the field sessions, taught largely by professionals that volunteer from a variety of natural resources based agencies and industries, specialty evening programs, guest speakers, hands-on learning-through-

discovery, and campfires provide for a lasting summer camp experience. Student teams also compete in a Land-Use-Game where they manage a 3,800 acre ranch for 20 years. As in real life teams must make hard choices between profits and conservation ethics, especially if they face poor commodity prices.

### NATURE STORY FINS ELEMENTARY SUMMER CAMP

Daily Operating Hours are 7:30 a.m. – 5:30 p.m.  
Full Time, Part Time, And Weekly Options Available!

The FINS summer program is catered towards working families who need consistent, fun, and educational care for 1st grade and above throughout the whole summer. FINS is a hand-built Montessori Based Curriculum tailored to our local surrounding natural environment based on different engaging topics. Our curriculum surpasses other camps and educational programs but offers flexibility to ensure your child is in a structured, safe, and fun environment all while learning about the world around them. Our hybrid system between the Montessori classroom and the natural outdoors allows children to engage with the information in a Montessori classroom setting but then apply the information within a natural environment that supports the topics presented.

The Montessori philosophy allows children to explore at their own pace by engaging with activities that are the most enjoyable for them.

This focused interest creates an environment where topics are solidified and absorbed due to the voluntary exploration the child has in regards to the topic at hand. Most structured educational summer camps do not offer the hours that working families need. We understand the lack of options when it comes to quality school aged camps operating within normal business hours during the summer. That is why Nature Story's FINS Summer Camp has grown in popularity each and every year. With our flexibility comes many options that are tailored to just what your family needs for the summer.

FINS is based out of Montana City School at 3 Microwave Hill Rd. To learn more, visit our website at [naturestorymontessori.com](http://naturestorymontessori.com) or email us at [naturestorymontessori@gmail.com](mailto:naturestorymontessori@gmail.com).
