The speeding voltage for an EV is high. A one-hour charge at a fast charger, such as a Level 2, is ideal, though it can be done in a few minutes at a Level 1 charger. Level 2 is the ideal. A few minutes at a Level 1 charger is ok, but a few minutes is too long. A few minutes at a Level 1 charger means something else.

A few minutes at a Level 1 charger means something else.

A few minutes at a Level 1 charger means something else.
