FOOD ESTABLISHMENT INSPECTION REPORT

Establishment Thai Thai Cuisine 4280 Prospect Drive Decatur, IL		Zone: 1
		Risk: 1
OBSERVATIONS AND CORRECTIVE ACTIONS		
Item Number	Violations cited in this report must be corrected within the time frames below.	
	Investigation to complaint (F-3085) that was received on 8/26/19.	
	Caller stated on 8/24/19 at 1:30 PM observed a live cockroach crawling on wall near table.	
	This is the 4th complaint for live cockroach activity from customers in 2019.	
	1) 12/29/18 (F-2912) 1/2/19 (Response to complaint)	
	2) 3/4/19 (F-2934) 3/14/19 (Voluntary Closure from Owner)	
	3/4/19 (F-2934) 3/25/19 (Investigation and Routine Inspection)	
	3) 7/26/19 (F-3047) 7/30/19 (Response to complaint)	
	4) 8/26/19 (F-3085) 8/28/19 (Current investigation)	
	Location has had a persistent issue with live german cockroaches in Kitchen (prep, production, and storage) in 2019. During prior investigations, presence of live activity was observed (found) but was being controlled/monitored to a minimal level with pest control services (Terminix). During prior investigations and routine inspections, level of activity was not considered an imminent health hazard. Service reports from pest control were verified showing Terminix performs weekly treatments.	
	Owner of facility (Nikki) contacted pest control Monday August 26th stating customer was very upset regarding pest sighting. Terminix representative stated they would respond to cockroach issue on Friday August 30th.	
38	During investigation, significant activity (infestation) was observed throughout Kitchen. Twelve packets of live german cockroach activity were observed with a estimated count (adults and nymphs) of over 150 cockroaches. Live activity observed crawling on food/non-food contact surfaces and activity was present in exposed foods (spices). (PF) + Imminent Risk +

FOOD ESTABLISHMENT INSPECTION REPORT

Establishment Thai Thai Thai Cuisine		Zone: <u>1</u>
		Risk: <u>1</u>
OBSERVATIONS AND CORRECTIVE ACTIONS		
Item Number	Violations cited in this report must be corrected within the time frames below.	
38 (cont.)	Listed below are areas observed with the greatest pest activity 1) Three Compartment Sink (Wall, baseboards, wall/sink union) (50+) 2) Grill/Wok Station (Wall, baseboard, wall/unit union) (50+) 3) Portable (Roller Style) trash can (Kitchen) (20+) 4) Dish Machine (Frame, motor housing, floors) (15+) 5) Dish pre-wash station (10+) 6) Middle line (prep/production) (10+) 7) Ice machine (floor/baseboard) (10+) 8) Oven (floor, walls, legs) (10+) 9) Fryer (floor, walls, interior housing) (10+) 10) Tall Boy Reach-in cooler (wall, floor, baseboard) (25+) 11) Storage rack (Microwave) near Walk-in cooler (5+) 12) Dry Storage room (boxes, floors, walls) (5+) Due to severe infestation and high potential risk factors of transmission of foodborne illness from german cockroaches (E. Coli, Listeria, and Salmonella), violation during investigation (found) is considered an imminent health hazard. Location permit has been suspended until risk factors have been corrected. + Proper sanitation and treatment/monitoring from pest control services are required to resolve issue. Once pest issue (cockroaches) are eliminated, a follow up inspection will be scheduled to verify corrective actions have taken place. + Location will provide a CAP (corrective action process) stating in detail steps necessary to correct violation and a process to prevent future infestation. CAP can be submitted directly to health department for review along with a \$250.00 re-assessment fee. Thank you.
