Cryptoquip

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.

Kakuro

Best described as a number crossword, the task in Kakuro is to fill all empty squares, using numbers 1 to 9, so the sum of each horizontal block equals the number to its left, and the sum of each vertical block equals the number on its top. No number may be used in the same block more than once.

A UNIT OF HEARST

All puzzles are syndicated by King Features Syndicate Inc. and have been previously published.

Introducing a whole new dimension of early detection.

The new GE Pristina **3D mammography** at Hunt Regional Medical Center focuses on patient comfort using a soft surface and round curves.

Our 3D mammography provides superior diagnostic accuracy and delivers the lowest radiation of all FDA approved systems. We are the **first in North Texas** to use ProFound AI technology, which educes false positives and improves cancer detection rates.

Now covered by most insurances.
