Number of vaping fatalities increases

Officials repeat warning to stop using devices

BY MIKE STOBBE
Associated Press

NEW YORK — U.S. health officials on Friday again urged people to stop vaping until they figure out why some are coming down with serious breathing illnesses.

Officials have identified about 450 possible cases, including as many as five deaths, in 33 states. The count includes newly reported deaths in California, Indiana and Minnesota.

No single vaping device, liquid or ingredient has been tied to all the illnesses, officials said. Many of the sickened — but not all — were people who said they had been vaping THC, the chemical that gives marijuana its high. Many are teens.

Health officials have only been counting certain lung illnesses in which the person had vaped within three months. Doctors say the illnesses resemble an inhalation injury, with the body apparently reacting to a caustic

PLEASANT GROVE

Food truck park on its way to city

Site in The Grove includes space for seven vendors

BY LAURA GILES
Herald Correspondent

A new food truck park is in the works in Pleasant Grove.

On Tuesday, the city council approved a site plan for the park, called "The Grove Station," and an associated building that will be part of the project. The park will be located on property at approximately 95 S. 2000 West in The Grove area of the city.

"It's done in other areas, other cities. Traveling is when I really saw it a lot and thought, 'We could use that in Pleasant Grove.'"

— Clare Moon, owner and applicant of the site plan approval request

"The food truck park idea is a new concept here in Utah County. At least, I'm not aware of a piece of private land that is totally dedicated to the idea of hosting food trucks," said Daniel Cárde-

nas, the city's community development director.

According to Cárdenas, the site is about 1.23 acres and it will include parking for seven food truck stalls with outlets to connect to installed utilities. The food truck stalls are located in a circular shape with a little plaza in the middle.

"The public comes and they park in any of the 63 parking stalls," Cárdenas said. "The applicant is providing ample parking. People will come at lunch, get into the site, park and get food truck food."
