

CARMAN BAY LAKE IMPROVEMENT DISTRICT NOTICE OF TREATMENT FOR THE CONTROL OF CURLYLEAF PONDWEED AND EURASIAN WATER MILFOIL

Notice is given that the Carman Bay Lake Improvement District will treat curly leaf pondweed and Eurasian water milfoil, both Aquatic Invasive Species, on Carman Bay.

EPA and MNDNR approved herbicides will be applied in selected areas of each bay at no more than recommended application rates during May-August of 2018.

If a landowner does NOT want treatment to occur adjacent to their property contact the Carman Bay Lake Improvement District at:
