## Fairview Milaca Clinic closing primary care

*Minneapolis-based health care provider makes facility announcement*

Photo Courtesy Fairview Health

Fairview stated it is bracing for a \$250 million operating loss this year that has been exacerbated by the COVID-19 pandemic. The most recent financial records show Fairview posted an operating loss of about \$66 million in its second financial quarter from April through June this year. Suspension of non-urgent surgeries dramatically reduced its revenue.

*Town & Country*

Fairview Milaca Clinic is among the 14 primary care clinics in Minnesota and two in Wisconsin that will be consolidated into other locations by Dec. 4, 2020.

The co-located Fairview pharmacy will close by Dec. 1, 2020, officials with the Minneapolis-based health care provider stated in a news release this week.

Primary care clinics are closing in Columbia Heights, Farmington, Hugo, Lino Lakes, Milaca, Pine City, Roseville, Savage and Zimmerman in Minnesota, as well as select sites in Minneapolis, St. Paul and Bloomington.

Clinics also will close in Ellsworth and Spring Valley in Wisconsin. Eleven of the 16 had temporarily closed due to the COVID-19 pandemic.

Fairview will reduce its workforce by 900 employees.

Fairview Health also plans to shut down Bethesda Hospital in St. Paul that

had been handling COVID-19 patients and transfer that care to St. Joseph's Hospital. Inpatient mental health care will continue at the downtown St. Paul hospital at least through 2021.

St. Joseph's Hospital will handle coronavirus patients, but will close its emergency room by year's end and specialties such as neurology and bariatrics will be relocated, the Star Tribune reported. Fairview had no room at Bethesda in May with 150 COVID-19 patients spread across its hospitals. Since then it has averaged fewer than 50 patients per day at Bethesda and around 70 across its system of facilities.

Fairview stated it is bracing for a \$250 million operating loss this year that has been exacerbated by the COVID-19 pandemic.

The most recent financial records show Fairview posted an operating loss of about \$66 million in its second finan-
