

Geisinger

Celebrating the **compassion** behind the **care** on **Doctors' Day**

Geisinger physicians are more than just skilled clinicians.

They're advocates and community cornerstones. They live here and work here, providing world-class care to keep us at our best. Throughout it all, they've shaped Geisinger into the trusted, community-focused health system it is today.

This Doctors' Day, we thank Geisinger physicians for being at our side — and by our side — on every step of life's journey.
