

Geisinger

APPreciating the **team** whose **focus** is **you**

When you visit a Geisinger advanced practice provider (APP), you know you're in great hands. They listen. They ask questions. They diagnose. And they help you live your healthiest life. APPs serve in crucial roles at Geisinger:

- Physician assistants
- Certified registered nurse practitioners
- Certified registered nurse anesthetists
- Certified nurse-midwives

As essential parts of our care teams, our advanced practice providers bring expertise, compassion and commitment to every patient.

During National APP Week, we thank our advanced practice providers for the devotion that makes all the difference.
