

2001 Ford F-250 with the 7.3l diesel. It just received an oil change, fuel filter, accessory belt, synergy steering with fox steering stabilizer, and an s and b cold air intake. Has Falken Wildpeak Tires with less than 10k miles on them. Heated leather seats. It has been a reliable truck I just don't drive it anymore.

Title is free and clear in hand. Feel free to ask any questions and shoot me an offer!
