Mayor Saprykin Igor Ilyich,

Our valuable sister city relationship was established decades ago through the collaboration of community leaders and scientists from our cities with the intent of promoting peace and cultural exchange. Over the years, people from our cities have visited each other, stayed in each other's homes, and exchanged best practices in the fields of science and healthcare.

On behalf of the City of Livermore City Council, I write to you as Mayor of Livermore's sister city, to request your support for a cease-fire in Ukraine. Thousands of innocent lives have already been lost and the Ukrainian people continue to face an unprovoked, unrestrained military aggression from the Russian Federation.

We respectfully urge you to please act now, using your influence as a municipal leader, to call for peace and a withdrawal of Russian Federation troops from Ukraine. Stopping any Russian conscripts from your city being sent to Ukraine and mobilizing your communities to speak out against the Russian Federation's actions is urgently needed. In the spirit of mutual collaboration, we call on you to use your influence as a municipal leader to support an independent Ukraine, and reaffirm your advocacy for peace through mutual respect, understanding and cooperation.

The Livermore City Council disapproves of this assault on humankind and endeavors to make a positive difference at this critical juncture.

Sincerely,

A handwritten signature in blue ink that reads "Bob Woerner".

Bob Woerner, Mayor
City of Livermore
