## Parking and Storage of Vehicles and Other Equipment

§ 227-7. Purpose.

A. The purpose of this article is to regulate outdoor parking and/ or storage within the City of Isanti of vehicles of all types, including: personal vehicles, company vehicles, commercial vehicles, recreational vehicles, trailers, PODs, roll-off bins and fish houses, by specifying the appropriate location, type of surface, length of time, unit size, condition, screening, and number of such units allowed in the residential zone.

B. The City recognizes that property owners may own or store personal vehicles, recreationa vehicles, trailers, PODs, roll-off bins and fish houses for their persona

use. C. The City also recognizes that property owners may own a business or work for a business that allows them to bring a company vehicle home. Therefore, this article also regulates the types of company vehicles that a resident can park or store in a residential zone.

D. The City further recognizes that the presence of excessively large commercial vehicles or equipment in residential areas has detrimenta and blighting impacts upon the residential quality and character of such neighborhoods. The City finds that these vehicles and equipment intrude upon the aesthetics and visual peace and quiet of a residentia neighborhood. Such vehicles car impair the free flow of traffic or residential streets and by their size are detrimental to residentia traffic safety, often create excessive noise for such surroundings, their presence tends to encourage and effectuate the expansion of uses that are inconsistent with or inappropriate in residentially zoned areas, and that their presence therefor is likely to have a negative impact upon residential property values Therefore, the City Council finds that the prohibition of the parking and storage of such vehicles and equipment, due to their excessive size, design, type, or characteristics is appropriate in residentially zoned
