Imagine ending your joint pain in seconds. Scientists say this is now quite possible. That's because they've stumbled upon a natural painkilling compound... that works so fast... it's nothing short of amazing. This botanical extract comes from an aromatic evergreen tree that grows wild in Sumatra. In case you don't know, Sumatra is the sixth-largest island in the world. Ancient explorers called it the “Island of Gold” due to its rich gold deposits. And now, scientists believe, this tropical paradise may hold the richest deposits of this pain-busting compound.

## The Key To Pain Relief For Millions Of People!

Clinical research shows conclusively that this compound, known as Laurus camphora, numbs pain sensations almost immediately. In addition, it increases local blood flow... reduces swelling and inflammation... acts as an antimicrobial... and stimulates nerve endings to relieve joint and muscle aches extremely fast. The reason it works so fast is simple. Unlike most topical pain relief extracts, this one is readily absorbed through the skin. As soon as it's rubbed on it cools or warms the area as it fights off soreness, aches and pains at the source. It is so powerful and safe the United States government has approved it as a pain reliever... and... as an anesthetic.

Researchers at Universal Body Labs have successfully put this blockbuster compound in a new natural pain relief “roll-on” called RejuvaFlex. This product is incredibly effective because it contains Laurus camphora... plus... 18 extra ingredients scientifically-proven to douse inflammation... deliver pain-soothing nutrients directly where it hurts... and... stop the suffering in short order.

“When your muscles or joints feel stiff, sore, bruised or strained RejuvaFlex can help quickly. There's no goopy mess to deal with and your hands won't smell all day. Just roll it on the affected area and watch in amazement as the discomfort vanishes practically on contact. It's truly a cutting-edge product with the most powerful and potent pain-fighting ingredients you can find,” says pain relief expert, Dr. Jana Hull.

## Turns Off The Body's Built-In Pain Switch In Seconds!

The scientists who developed RejuvaFlex made a startling discovery about how we feel pain. They found out that the body produces pain-inducing chemicals whenever joints or muscles hurt. Some of these pain chemicals bring on inflammation and swelling. Others create pain sensations that can

put you out of commission. The pain signals are sent to the brain... and... that's when you feel the torture. The special compound (and other carefully-chosen ingredients in this product) work together to interrupt the production of these pain chemicals.

They literally turn off your body's pain switch. That's because of two important reasons. First, this product contains ingredients that kill pain as fast as possible. Second... and this is even more important... it is made with a powerful molecule that allows all the pain-stopping ingredients to absorb through the skin almost instantly. Which means, this molecule is the perfect delivery system to get those pain-fighting ingredients where you need it most.

## Makes Rigid, Tender Joints And Muscles Feel Like New Again!

“RejuvaFlex dissolves and soothes away stiff, tight and sore knees, elbows, backs, shoulders and necks... and... makes them feel like new again in no time,” Dr. Hull said. Anyone suffering from joint or muscle aches and pains can benefit. You can walk, run and even climb stairs with ease. Your mobility, flexibility and range of motion will improve... and... so will the quality of your life. Best part, you can look forward to living a more pain-free life from now on.

The manufacturer of RejuvaFlex has made a special arrangement for readers of this publication. They have agreed to run a limited time market test. This means a risk-free trial supply of this product is available for a very short time. A toll-free Local Pain Relief Hotline is now taking calls for the next 72 hours only.

“We strongly suggest that anyone suffering from nagging joint or muscle aches call the Local Pain Relief Hotline right away. The market test we are running only allows for a strict limited supply of this product to be made available to the public. There's a good chance we'll run out before the test ends,” said Bill Brady, Director of the Local Hotline.

“Every shipment is delivered on a first come, first served basis. Anyone who waits to call may find our current supplies are gone. Usually, when a market test like this is run, more than half of our supplies are depleted on the first day. We expect that to happen with this amazing product as well,” he said.

## Stops The Needless Suffering So You Enjoy Almost Instant Relief!

The combination of special ingredients in RejuvaFlex is a pain-stopping cocktail unlike any other. These ingredients are clinically-proven to ease away inflammation and swelling. When you feel pain coming on, simply rub it where it hurts. Within seconds the pain-producing chemicals are quickly stopped in their tracks. You'll feel blessed relief so fast it will take your breath away. The usual aches, stiffness and soreness you put up with now quickly vanish. So you can live life on your terms without the fear of pain.

The result is a freedom you might not have felt in years. The freedom to do the things you love... without... worrying about paying the price later. Your joints and muscles will feel loose and relaxed as you go about your day. And you'll have a big smile on your face knowing pain will never stop you again. However, none of this will happen... unless... you take advantage of the opportunity extended to our readers.
