

YOUR HEART IS IN THE RIGHT PLACE.

A little lesson about the heart: It's not always chest pain or a rapid heartbeat that indicates a problem. Sometimes it's a subtle, fluttering feeling hinting the heart is out of rhythm.

At Prairie Cardiovascular, you'll find doctors dedicated to heart rhythm disorders, like AFib, that raise your risk for stroke. Our experts deliver a range of treatment options—some pioneered at Prairie—to help you get back to the rhythm of life.

With 30 locations throughout Illinois, there is a Prairie specialist near you. Connect with us today at hsbs.org/heart.

Prairie Cardiovascular is part of Hospital Sisters Health System (HSBS), working collaboratively to provide comprehensive and integrated cardiac care throughout Central and Southern Illinois.
