HNS - A compound that triggers weight loss in the abdomen has been used safely in France for years. It is now available in the United States without a prescription.

The pill contains ingredients that not only burn belly fat... but... also help maintain healthy cholesterol and blood sugar levels.

Plus, at just two dollars per daily dose, it's very affordable.

Today marks the nationwide release of this pill in the United States. It's being offered by the Applied Scientific Research Center in Colorado. The U.S. brand name of this pill is OxiTrim.

Clinical results show dieters can lose up to 5 inches from their waistline within just 8 weeks of daily use. That's because OxiTrim works to enhance the body's ability to burn a specific type of fatty acid found in the abdomen.

OxiTrim does not contain stimulants or dangerous chemicals. The active ingredients have a track record of safety showing no harmful side effects.

France's Weight Loss Breakthrough

In 2013, scientists announced a pill that facilitates weight loss in the abdomen. It contains a combination of ingredients shown to enhance the metabolism's ability to burn belly fat.

Since then, it has become a popular diet pill in France and parts of Spain and Germany. Sales continue to climb as new people discover how well the product works.

Michael Kenneth, President of the Applied Scientific Research Center is not surprised by the popularity. He says, "The pill is safe. It's effective. It works fast. Plus, it costs less than a cup of coffee per day."

"And now, we're making it available in America under the new brand name OxiTrim. We can't wait to receive feedback from first time users. We know dieters are going to love this pill," he added.

Double Blind Clinical Results

A double blind clinical study was conducted on OxiTrim's active ingredients. The study was reviewed and analyzed by scientists from the University of California, Davis.

The findings were then published in the *Journal of Medicinal Food...* and... the *Obesity Journal*.

Participants were given either a placebo...

Sales Frenzy: The newly released OxiTrim pill from France is set to break sales records nationwide this week. In clinical studies, users taking the pill's active ingredients lost up to 5 inches from their waistline in 8 weeks without strict dieting.

or else... OxiTrim's active ingredients twice per day for 8 weeks. They then ate a normal 2,000 calorie diet and walked for 30 minutes, 5 days a week.

The results were stunning.

Those who took the active ingredients lost almost 4 times more weight than the placebo group. Even more exciting was the quantity of inches they lost from their waistline.

The group taking OxiTrim's active ingredients lost almost 5 inches of belly fat. That's equal to 2 pants sizes for men... and... 4 to 6 dress sizes for women.

The pill even helped maintain healthy cholesterol and blood sugar levels. This is especially good news for anyone who is overweight, given the health risks they often face.

How It Works

The active ingredients in OxiTrim trigger weight loss in a way scientists have not seen before. Research shows they activate a protein in the body that breaks down fatty acids found in abdominal fat.

"You can think of OxiTrim as a match that lights the fuse in belly fat," said Kenneth. "This fuse effects metabolic rate which results in enhanced fat loss around the mid section and other parts of the body, too."

Kenneth also said, "Dieters should know OxiTrim is made from natural plant extracts. It is not a drug. It does not contain any stimulants or dangerous chemicals either."

"Plus, unlike a lot of other diet pills, OxiTrim won't increase your heart rate or make you anxious. In fact, you won't even know you're taking it until you begin to see a slimmer waistline," he added.

Approved By Top Doctors

"The advanced ingredients found in OxiTrim have been used successfully in France for years. The clinical trials show they can burn fat fast for those with a few extra pounds to lose." — Dr. Ana Jovanovic.

"OxiTrim is the most exciting breakthrough in natural weight loss to date. It's a proven pill for men and women who want to cut pounds of belly fat." — Dr. M. Usman, M.D.

"I have reviewed the research and have decided to recommend OxiTrim to overweight people. That's because OxiTrim doesn't just reduce weight, it helps maintain healthy blood glucose levels, too." — Dr. Ahmad Alsayes.

110% Money Back Guarantee

Amazing feedback from users of OxiTrim has generated a wave of confidence at the company. So much so that they now offer OxiTrim with a 110% money back guarantee.

The company's president, Michael Kenneth says, "We've seen how well it works. Now we want to remove any risk for those who might think OxiTrim sounds too good to be true."

Simply take the pill exactly as directed. You must enjoy fast and impressive weight loss. Otherwise, return the product as directed and you'll receive 100% of your money back plus an extra 10%.

How To Get OxiTrim

Today marks the official nationwide release of OxiTrim in America. And so, the company is offering a special discount supply to every person who calls within the next 48 hours.

A Regional Order Hotline has been setup for local readers to call. This gives everyone an equal chance to try OxiTrim.

Starting at 6:00 am today the Order Hotline will be open for 48 hours. All you have to do is call TOLL FREE 1-888-874-9253. Then provide the operator with the special discount approval code: OTD19. The company will do the rest.

Initial supplies of OxiTrim are limited. Those who don't call within the next 48 hours may have to wait until more inventory is produced. This could take as long as 6 six weeks.
