The Best Places to Work survey measures key areas that make up an organization's culture. These range from compensation and benefits to trust in senior leadership. The survey also measures the level of engagement exhibited by employees, known as employee engagement. Each question on the Best Places to Work survey is associated with a response option; each response option is associated with a numerical value. We use these numerical values to profile your employees and calculate an overall score, which is used to determine each organization's rank.
