

ASK THE EXPERT:

****Attention all readers!!!! If you have a plumbing or heating question, please call our office! We may use your question in the paper! ****

So this week we are going to answer our most commonly asked Thanksgiving week question before you ask it!

When preparing your wonderful Thanksgiving meals remember these tips regarding your garbage disposal:

- No or only a few potato peels, apple peels or egg shells.
- No large amounts of pasta, dough or rice.
- Always put stuff down in smaller quantities WITH water running - do NOT stuff it full and then hit the button.
- If you can't chew it with your teeth don't feed it to your disposal (bones, cinnamon sticks, spoons, etc.)
- The pipe that runs to your garbage disposal is only 1-1/2" in diameter so be reasonable with what you think that poor little disposal can handle.

We hope this helps save you some headaches and a call to your favorite plumber, and makes for easy clean-up following Thanksgiving dinner. Relax and enjoy the dessert!

Everyone at Building Waters wishes you a happy, safe, and healthy Thanksgiving holiday!
