Fully Traversing Turret
The Sherman Tank was the first of its kind to be equipped with a 75mm main gun on a fully traversing turret.

Battlefield Equipment at the Ready
The Sherman Tank carried a full load of battlefield equipment which is now replicated in 1:32 scale.

The Sherman Tank, General Patton's "Tank of Choice."

At the end of WWII, the Cobra King and its crew from the 4th Armored Division had fought and won many battles. Most notable was the Battle of the Bulge, a victory that earned this crew an elite place in Army history while also helping to make the Sherman Tank an enduring symbol of the invincibility of America's war machine.

Now this battle-tested tank can be yours with the "U.S. Sherman M4A3E2 (75)," a 1:32-scale die cast inspired by this vital weapon in the offensives of the U.S. and its Allies. This scaled model replicates this military vehicle with great precision and includes working treads, elevating weapons, an engine on stand plus much more.

- Rotating metal turret; die-cast upper hull & soldier body; aluminum gun barrel
- Authentic casting textures across the tank surface; operable hatches
- Welded spoke wheels; moving tracks on rotating wheels; vertical spring suspension design

Backed by our 365-Day Guarantee.

Send no money now. Reserve it today for four payments of \$49.99 (plus \$23.99 total for shipping & service; see HamiltonCollection.com). Only the first payment will be billed prior to shipment. Your satisfaction is assured or your money back. Reply today!
