

January 17, 2020

Citizens of Kokomo, I come before you with a broken heart and a contrite spirit. My actions of the past are unacceptable for one who has been selected to represent my district. I owe all of Kokomo an apology for the embarrassment that I have caused our fine city. My comments are uncalled for and inappropriate. I hope that the people will see to forgive me for my sins of the past. I realize I still have room for personal growth. I am a work in progress and will continue to right my wrongs.

The City of Kokomo is faced with many important decisions this coming year. I do not want my actions to distract from the important work of the council. I would like to thank District 4 for their support and confidence in me, by electing me to represent their best interests. I have great pride for not only our city but also our country.

Over the last several days I have come to the conclusion that the best way for me to continue to serve our community is for me to step down effective immediately as your District 4 Councilman. I hope to find ways to serve our community in the future.

Gregery A. Jones

A handwritten signature in black ink, appearing to read 'Gregery A. Jones', with a long horizontal line extending to the right.
