Monroe and Shelby County 2 SW Duncans Bridge to 3W Shelbyville	04	1805CST- 1842CST	160	24	0	0	4.5K	2.5K	Tornado (F1) This is a continuation of the tornado that tracked through Moberly, MO. It continued its northeast movement and entered western Monroe County southwest of Duncans Bridge around 1805 CST. Several farm buildings were damaged in this area, including a barn, grain bin, machine shed, and power lines. The tornado crossed into southern Shelby County about 8 miles south of Clarence at 1812 CST and crossed Highway 36 around 1827 CST. Along County Road K west of Shelbyville, several trees and power lines were knocked over or snapped off. The tornado lifted over open ground to the west of Shelbyville around 1842 CST. It continued to produce funnel clouds into neighboring counties and debris was carried some 100 to 150 miles northeast. There were no known injuries.
Lewis County Steffenville Lewistown	04 04	1905CST 1915CST			0 0	0 0	0 0	0 0	Funnel Cloud Funnel Cloud The county sheriff, storm spotters, and the general public reported several funnel clouds. These funnels were likely the decaying stages of the earlier tornado that tracked from Moberly, MO into neighboring Shelby County several minutes earlier.
Clark County Alexandria	04	2009CST			0	0	0	0	Thunderstorm Winds (G52) Wind gusts as high as 60 mph were reported by the county sheriff.
