BATHROOM REMODELING

What does a "new bathroom" represent to you? It could mean only replacing the tub or shower with something new, like removing an old cast iron or fiberglass tub and replacing it with a safer attractive walk-in shower. It could also mean replacing an old toilet with a new comfort height toilet to compliment the safer shower. To completely update your bathroom may require new cabinetry, a new sink and faucet, new lighting and new flooring. In some cases for accessibility or added luxury your bathroom renovation may mean moving walls and "stealing" space from a bedroom or closet. Whatever you have in mind, our experienced designer will assist you in choosing the products that best meet your needs, match your taste, and fit your budget. The wonderful thing about visiting The Board Store Showrooms is that you will find all the products you need and all the tradesmen necessary to complete your bathroom makeover.

You will find easy care Jacuzzi shower and tub options in attractive colors in smooth, subway, herringbone, and stone patterns. If you prefer solid surface or real tile, you won't be disappointed. Our tile showroom is one of the finest displays in the Midwest. There are three lines of cabinets, vanity tops and bowls, toilets, bidets, and all types of flooring. Superior quality fixtures for

tubs, showers, and sinks and lighting are all right here.
