

More family health care in Chippewa Falls

Marshfield Clinic Health System welcomes a nurse practitioner

Access to great health care shouldn't be complicated. That's what we believe at Marshfield Clinic Health System and exactly why we bring more primary care providers to your community.

Welcome, Dana Bessen, who joined our Chippewa Falls team.

Dana, like other primary care providers, helps you take the first steps in preventive care. She becomes familiar with your health and meets with you regularly for wellness exams or at times you don't feel well. If needed, she also connects you to specialists in our System.
