I was hoping that you would not file for reelection. Go ahead and file. I look forward to it.

That will be so much fun to watch! A year from now you will cleaning out your former office.

382 days left.

Subject: Email

Mr. Hasty,

It is nice you finally checked your email. It is frustrating for me and your constituents that you are so difficult to contact.

On a related topic, I believe it is bad policy for you to have Donna Scheiter, the commission secretary, read and respond to your emails. That's your job, not hers. Even when Bev and I are out of the courthouse, we check and respond to our emails.

Regarding the county human resources person, I think you are giving – or allowing her to take – too much responsibility for matters such as county insurance coverage. She is an employee, not a commissioner and has no particular expertise in the county's insurance coverage and certainly no authority in that regard. The commission is responsible for sorting out the insurance issue and if you are dissatisfied with the current coverage, we can make a change as soon as you figure out where you are going to get the \$400,000 to cover that change.

We have had two meetings with MMP's attorney, who clearly explained what they are doing. Camden County is only one of their many clients, we are not the only one who use MMP as a TPA. Here are the facts: our HR has been working with Bukaty since March and Bev Thomas claims she didn't know until September to look for other quotes. Bukaty contacted Cape following our meeting with them and stated this commission asked them to contact them. Clearly a huge character issue with them.

So again, if you and Bev Thomas want to change carriers, be prepared to come up with the money.

I represent the people of the 2nd District and you are not my boss. You clearly have voted against the concerns of my district and you should not think I will remain silent on the issue. You and Bev have budgeted to cut school resources officers for my district and cut desperately needed services from road and bridge to my district.

I would suggest that you look to your own actions regarding soliciting private business while doing county business, or do you wish me to further discuss you soliciting survey work while in your capacity as a Commissioner, and GW Hasty surveying business cards on your Commission desk.

I also suggest we take action as your promise to increase security at the courthouse. Keep in mind that all the county officials voted against you on this issue and voted to continue the policy of personal conceal and carry while we were working something out. You have done nothing on the security issue. Once again, lots of talk, no action.

You should spend a little less time bothering me and a little more time working on important county issues, responding to constituents and showing up for work.

Cliff Luber
2nd District Camden County
Commissioner

All that is necessary for evil to succeed is for good men to do nothing.

Edmund Burke
