1963 CORVETTE STING RAY

Honors America's 250th Anniversary

EXCLUSIVE Finish in DAYTONA BLUE with Patriotic Trim

Collectors will admire the flip-up hideaway headlights.

1:18-Scale Die Cast Measures 10 1/2" Long; Tooled with OVER 200 Parts

The hood seamlessly lifts to reveal details of this world-class race car's fuel-injected 360 horsepower engine.

The '63 Corvette was the only model with the split window design, which is accurately captured in 1:18 scale.

Doors open, plus the hood opens to reveal details of this car's fuel-injected 360 HP 327 V-8.

Stars, Stripes & Speed: NEW 1963 Corvette Die Cast!

The perfect brand to honor our nation's 250th anniversary, Corvette embodies the very qualities that define America—bold innovation, fearless independence and classic style. From its 1953 debut to its cutting-edge performance today, Corvette has pushed boundaries, capturing the spirit of progress and the pursuit of excellence that built America. Corvette is a cultural icon, a source of pride and a testament to the ingenuity and ambition that drive America forward!

EXCLUSIVE 1963 Sting Ray die cast in red, white & blue is a must-have for patriots!

Now America's 250th anniversary is celebrated with the "1:18-Scale 1963 Exclusive Corvette Sting Ray" die cast inspired by the ONLY Corvette to feature the split rear window and chrome hood inserts. Exclusively from Hamilton in a Daytona Blue finish

coupled with a custom white stripe and a red interior as a nod to the Stars & Stripes, this die cast is packed with features including a detailed interior; opening hood and doors; flip-up headlights; patriotic vanity plates; plus a USA flag decal on both C-Pillars. From bumper to bumper, this die cast is lavished with chrome trim, true-to-scale redline tires and more.

Send no money now to reserve this die cast for four payments of \$47.49 (plus \$23.99 total for shipping & service, and sales tax; see HamiltonCollection.com). The first payment will be billed prior to shipment. Drive home your patriotic pride with America's Sports Car now in a 1:18-scale die cast ONLY from Hamilton. Our **365-Day Guarantee** assures your satisfaction. Reply today!

The World's FIRST Nuclear-powered Aircraft Carrier

1:700-Scale USS Enterprise (CVN-65)

Measures 19 1/2" Long Including Display Base

- A fleet of OVER 20 aircraft models including E-2C Hawkeyes; F-14 Tomcats; F/A-18 Hornets; and S-3 Vikings
- Aircraft carrier is removable from its display base; deck boasts intricate surface and superstructure details; hull is tooled of quality die cast
- Detailed stern with four propellers; wood-look presentation stand with metal plaque; and gold-tone chrome-plated metal pillars

Arrives complete with everything shown below.

Presented by Hamilton Authenticated and manufactured by Forces of Valor under license.

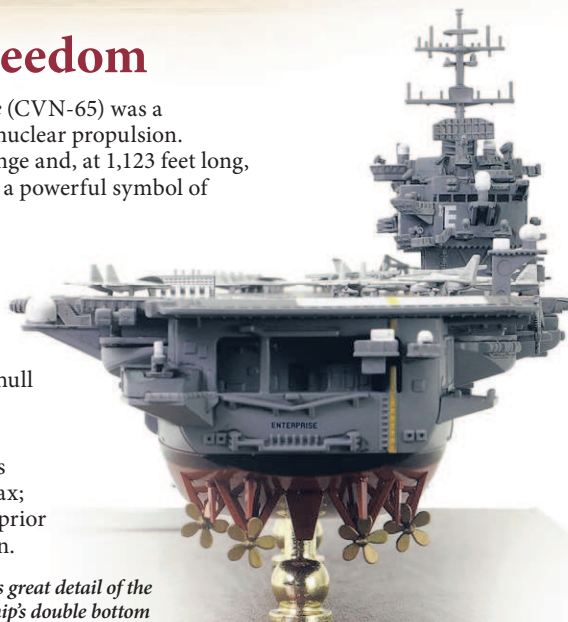

A Powerful Force of Freedom

The first-ever nuclear-powered aircraft carrier USS Enterprise (CVN-65) was a groundbreaking naval vessel that showcased the potential of nuclear propulsion. With eight nuclear reactors, the ship had nearly unlimited range and, at 1,123 feet long, she was the longest naval vessel ever built. Today she remains a powerful symbol of American strength and innovation.

Now this elite carrier is honored with the "USS Enterprise (CVN-65)," a 1:700-scale model with a renovated command bridge, updated side weapons and a "65" at the front of the flight deck. The campaign is Operation Enduring Freedom from 2001, with the proper air wing configurations and bridge settings. Built with a die-cast metal hull set atop a simulated wood base, this aircraft carrier replicates its massive deck with exceptional detail.

Send no money now to reserve this die cast for four payments of \$49.99 (plus \$23.99 total for shipping & service, and sales tax; see HamiltonCollection.com). The first payment will be billed prior to shipment. Our **365-Day Guarantee** assures your satisfaction. Reply today!

Boasts great detail of the warship's double bottom and four 32-ton propellers.
