Stories of Nature and the Spiritual World

This illuminating, hand-sculpted wonder showcases fully-dimensional, hand-painted wolves interacting with the celestial world and the vibrant light show around them. Snow-dusted Northern pines behind them shimmer with illuminated shades of violet, blue, and green via built-in LEDs. Before them, a trio of flameless votive candles flicker with an ambient glow. The woodgrained base displays Al Agnew's insightful artwork, uniting the wolf pack and the intriguing Aurora Borealis.
