The chair indicated that he wished to move up a few agenda items to accommodate those waiting who had signed up for Public input.

The chair identified that he would be addressing agenda item number 19, "Approve a waiver request of Section 125-3, Prohibitions and restrictions of use, to allow a mobile home to be placed in a named subdivision for Tara Still located at 17926 Mayflower Street, Livingston, LA 70754 in Mayflower Subdivision, Council District 8" and asked the Council clerk to read from the Public input list who had signed up for this agenda item.

Public input: David May, resident of Justin Drive, Denham Springs; developer of Mayflower Subdivision appearing on behalf of Tara Still

Mr. May explained that he was the owner of the lot in this subdivision and had sold the lot to Tara Still. He advised Ms. Still when she purchased the property that she would be allowed to put a mobile home on this property. He also explained that as courtesy, she had went through the neighborhood in the subdivision and made sure that it would be alright and they all agreed that they were okay with her plans of moving her mobile home on that lot.

Councilman Randy Delatte asked if this would be the only mobile home in the subdivision? Mr. May advised that it was not, there were others as well. Councilman Tracy Girlinghouse asked how old was the development? Mr. May indicated that it was about ten (10) years old. Councilman Girlinghouse wished to confirm that there were multiple mobile homes in this subdivision to which Mr. May confirmed.

Public input: Tara Still-resident of Winter Ridge, Walker: requesting the waiver of Section 125-3

Ms. Still advised that she had signed agreements with the neighboring property owners in the subdivision that they were alright with her moving a mobile home on the lot that she purchased in the subdivision and also confirmed other mobile homes that were located there.

LPR NO. 20-106

Thereupon the chair declared that the Motion had carried and was adopted.

The chair addressed agenda item number 18, "Adopt a resolution for the consideration and approval of a waiver of Section 125-12.4, requiring an access servitude of 40(0) feet and grant the allowance an access servitude of twenty-two (22') in width adjacent to the existing home on the required forty (40') servitude width when said servitude is less than 1,056 linear feet in length" and called for the next Public input listed on the sign in sheet.

Councilman Talbert asked several questions regarding what sewer utilities were provided in this area. He discussed at length the requirements needed for sewer installation.

The chair called for Public input on this agenda item.

Public input: Janet Richard-resident of Hammack Road, Denham Springs, LA: requesting waiver (An unidentified male family member also appeared with Ms. Richard)

Ms. Richard discussed the purchase of the property in question and being misinformed on the ordinance mandates required for their plans to develop.

The chair requested input from Councilman R.C. "Bubba" Harris. Councilman Harris was not in favor of granting a waiver for this property.

The chair allowed the Councilmembers to question Ms. Richard in an open discussion.

Councilman Garry Talbert suggested that Ms. Richard meet with the Health Department and find out what the requirements were for a servitude in the back of the property, then visit with the neighboring property owner about granting her an egress servitude on part of his property to complete the required footage.

The chair allowed an open discussion and it was determined without a vote to defer this item without a date.

The chair addressed agenda item 9, " Update from Charter Communications on internet services on Red Oak Road" and called upon Councilman Randy Delatte.

Councilman Delatte explained that he had been in contact with Mr. Ed Serna who has taken over the position of our Charter Communications representative and requested that he give an update of the prior information that Charter had given regarding the costs analysis for the Red Oak Road residents to receive services. Councilman Delatte asked if Mr. Serna could put that in a more precise manner in case the Parish would be able to apply for a grant. Mr. Serna has been working on that and keeping him up to date, calling Councilman Delatte at least once a week, but because of COVID-19, he could not attend the Council meeting that evening. He also stated that Mr. Serna has not completed everything yet that Councilman Delatte has requested in order to give an update to the Councilmembers.

Councilman Delatte asked the Councilmembers to review the news article from the Advocate dated May 1st that was included in their meeting packet. He advised that it was regarding two hundred sixty million dollars (\$260,000,000.00) that the federal government has already paid Louisiana to provide internet service to the schools that could not have internet service that also included buying laptops. He stated that he wanted to get some general discussion on it. He indicated that after this story came out on social media, there have been places all over the Parish that do not have internet services. He wondered since our federal delegation had obtained this appropriation, he wanted to make sure that our state legislative delegate to do the same and make sure that Livingston Parish received that share of our money and also write something to the school board to see what their plans are to utilize this money or if they know about it. He thought that they did know about it because they had done a survey earlier that day in some parts of Livingston Parish going out asking if they had laptops and if they had internet service. He was not sure where all it went out in the Parish, but he did know that it went out to the residents of Red Oak Road. He stated that he would like to get some discussion on it, some better ideas, but basically, he would like to see that they get their share of that money and that they are able to connect Livingston Parish residents that are not connected now and have the same opportunities as everybody else. He stated that it was not just the school children, a lot of people work at home also who do not have internet service. He wanted to explore all the options and maybe see what they could do taking it out and come up with a plan of action.

Councilman Talbert asked if he wanted to send a resolution or a letter to the Governor of Louisiana to ask to utilize some of this money to provide internet service to Livingston Parish?

Councilman Delatte stated that anything that would work, even our state delegation. Councilman Maurice "Scooter" Keen, Councilman Jeff Ard and Councilman Talbert suggested sending it to Garret Graves as a "vc" along with Livingston Parish's state delegation.

Councilman Delatte stated that he thought that they should get some sort of feedback from the school board as they may not be aware of certain situations and maybe see what their plan is so they could keep abreast of what is going on.

The chair stated the action of Council would be to request the Council clerk to write a letter and forward it to the appropriate individuals at the school board to try to obtain some of that data from them.

Councilman Talbert stated that there were nine (9) school board members, the school board superintendent, the Legislative delegation from the Parish and the Governor's office that the letter should be addressed to.

Councilman Delatte stated that the school board may be willing to send someone from the school board administration to speak to the Council on behalf of what they have planned. He continued to state that at one time, the local Parish government was responsible for the cable service, but he was not sure who was responsible for it now.

The chair answered that it was private industries. Councilman Talbert asked if it was to understand that Livingston Parish received four point four million dollars (\$4,400,000.00) in money already? Councilman Delatte advised that was what the article stated. Councilman Talbert stated that the Council needed to find out if the school board was receiving those funds, are they using those funds to obtain computers or are they trying to improve the internet access to the individuals that live in the area.

The chair allowed a brief open discussion and then stated that he wished to re-cap what the resolution would state to forward to the Legislative delegation, the Governor, to take a look and ensure that Livingston Parish was getting their fair share of this federal funding.

Councilman Delatte questioned who would be administering these funds? Would it be Parish government, the Parish school board? He would like to be included in the letter.

The chair allowed an open discussion before the vote.

The Council clerk requested for the chair to confirm who the letter will be sent to. It will be sent to the Governor, the Livingston Parish Legislative delegation and the Livingston Parish School Board. The chair concurred and confirmed this to the Council clerk.

LPR NO. 20-108

MOTION was made by Jeff Ard and duly seconded by Tracy Girlinghouse to send a letter to the Livingston Parish School Board superintendent and its nine (9) board members, the Livingston Parish Legislative delegation and the Governor of Louisiana requesting information regarding the federal aid received by public schools that have been allocated to the state of Louisiana to help aid with costs sparked by the Coronavirus pandemic and to address learning gaps after the loss of weeks of traditional instruction for school children to ensure that all students have access to obtain laptops or tablets as well as internet access, as well as other urgent needs.

He had conveyed to the Council office that he wanted to make room for others to attend the meeting due to the COVID-19 social distancing mandates and restrictions. He was watching the meeting live and was ready by his phone to answer any questions that the Councilmembers may have.

The chair addressed agenda item number 13, "Adopt resolution to authorize a waiver of Section 110-1 (c) in regard to the eight (8') foot high solid wood fence requirement between conflicting land uses and allow a six (6') foot high solid fence to be granted to Joulé, LLC on behalf of South Alexander Development 1, LLC located on George White Road, Holden, LA in Council District 9".

The chair gave a brief history of Joulé's history and the previous waiver that was granted for parking that would allow limestone instead of hard surface pavement. He explained that they were coming back to request a waiver of the eight (8') fence requirement and allow a six (6') foot fence with two (2') feet of barbed wire at the top.

The chair allowed a lengthy open discussion. The Councilmembers concurred that it was best to defer this issue for two (2) weeks and put this item on the next agenda.

The chair addressed agenda item number 14, "Amend LPR No. 20-097 adopted on March 12, 2020 to reflect "Hunstock Drive as Hunstock Avenue (entry road to Hunstock Hills Subdivision)" and called upon Councilman Garry Talbert who explained why the resolution was needed.

LPR NO. 20-111

The chair addressed agenda item number 16, "Authorize a waiver for David Wiggins allowing a structure across his property lines located on Lots 12 and 13 of Block A on Paradise Road in Council District 8" and called upon Councilman Randy Delatte.

Councilman Delatte explained that the property in question was two (2) small lots located in Mr.'s Paradise. Mr. Wiggins does not have enough footage on either lot to put his mobile home length wise across, so he is requesting to be allowed to place it horizontally. He recently bought the properties a month ago and plans on building a site built home if he enjoys living on the property. At that time, he will consolidate the two (2) lots before building. If not, he has already spoken with the two neighboring property owners and they would like to each purchase their neighboring lot.

Councilman Talbert asked what Councilman Delatte's feelings were on this matter. Councilman Delatte was not opposed to granting the waiver and had spoken to Mr. Sam Digirolamo who originally requested the waiver on Mr. Wiggins. Mr. Digirolamo did not have a problem with the request as the lots were so small.

Councilman Maurice "Scooter" Keen requested to share with the Councilmembers that he had this same issue in his district.

The chair allowed a brief open discussion.

"Bubba" Harris.

Councilman Harris explained that he had been contacted by the gentleman who requested this agenda item and he wished to remove this item from the agenda. He informed Councilman Harris that he would be working with DEMCO to resolve the problem.

The chair declared that no action would be taken on this item.

The chair addressed agenda item number 20, "Remove Sharon Kay Drive from being considered for the Priority Road/Capital Outlay List located in Council District 1 and called upon Councilman Jeff Ard.

Councilman Ard explained that he had asked to put this on at their last Council meeting and was told that this road was in the parish maintenance system. The subdivision that this street was built in was built years ago and had two (2) roads going through it that were intended to be connected, but never did. One (1) road was brought into the system several years ago and the other road was assumed to be taken in at that time as well, but it never was. For this reason, Councilman Ard is requesting to have this road removed.

Councilman John Wascom stated that he supported him either way that Councilman Ard wished to go.

[SEAL] The chair addressed agenda item 9, "Updates on cable and progress report from Ed Serna of Charter Communications".

The chair and Councilman Randy Delatte both called upon Mr. Ed Serna. Mr. Serna was not present. Councilman Delatte offered to give a short update. He discussed letters that were sent to the school board and Legislative delegation trying to get cable into the rural areas and those who do not have internet service now.

The chair asked if anyone else would like to have input on this agenda item. Councilman Delatte requested to put this item back on the agenda for the next meeting and by that time, Mr. Ed Serna may be able to make that date to come to the meeting with his schedule to give an estimate of costs.

The chair acknowledged his appreciation for that report and shared his experiences with Mr. Ed Serna, instructing that Mr. Serna is coming up with a game plan to provide cable services in District 9 for people who do not have an opportunity for that service. He advised that he looked forward to the next meeting when that update could be given.

The chair asked if the Council members needed to take action to contact Mr. Serna to advise him that he would be on the next agenda. Councilman Delatte volunteered that he would be able to speak with him about it because he calls him once a week.

The chair addressed agenda item 10a through iv, "Parish President's Report", and called upon Ms. Jennifer Meyers, Finance Director, who was presenting on behalf of the Parish President in his absence.

Ms. Meyers greeted the Councilmembers and explained that she had four (4) quick grant resolutions. The first being the PW-01083 and advised that was for the road wash-out repairs that was visible damage road repairs that they had written a PW for, they've awarded the contract to L. King, they have started it and now need a ratification of that progress.

Councilman Garry Talbert questioned if Ms. Meyers had budgeted the match and then the additional work in this dollar amount that was presented? Ms. Meyers advised that these were SMGP projects so it's 75/25, but they have been awarded grants from OCD that will meet that 25% match, so these projects will cost them nothing. The only caveat is that it takes a little while, OCD is in no hurry, so this will put a hold on their cash for just a little while until OCD sends that 25% match.

LPR NO. 20-124 MOTION was made by John Wascom and duly seconded by Jeff Ard to ratify the approval of the FEMA Public Assistance Project 1083 Roadway and Related Drainage Repairs (PA-06-LA-4277-PW-01083-2) contractor agreement with L. King Company, LLC, and also ratify the authorization of the contract.

Upon being submitted to a vote, the vote thereon was as follows: YEAS: MR. TALBERT, MR. MACK, MR. WASCOM, MR. DELATTE, MR. HARRIS, MR. MCMORRIS, MR. ARD, MR. KEEN, MR. GIRLINGHOUSE

Thereupon the chair declared that the Motion had carried and was adopted.

Ms. Meyers stated that the next one was the West Colyley Creek Bank Stabilization Project and was a result of the 2016 Flood and was a wash-out, but for some reason they could not get a PW written for this, but they knew that they could get Hazard Mitigation funds for it. She explained that this would be covered at 100% as well and clarified that the 25% matches for these projects were not big amounts.

Councilman Tracy Girlinghouse questioned if this was the south part of the interstate of West Colyley? Ms. Meyers did not know and could not answer that question.

LPR NO. 20-126 MOTION was made by John Wascom and duly seconded by Tracy Girlinghouse to authorize the Parish President to enter contract negotiations and agreement with G.E.C., Inc. to perform engineering services for the West Colyley Creek Bank Stabilization Project - a Hazard Mitigation Grant Program Project - FEMA-4277-DR-LA, Project #0097.

Upon being submitted to a vote, the vote thereon was as follows: YEAS: MR. MACK, MR. WASCOM, MR. DELATTE, MR. HARRIS, MR. MCMORRIS, MR. ARD, MR. KEEN, MR. GIRLINGHOUSE

Thereupon the chair declared that the Motion had carried and was adopted.

Ms. Meyers stated that the final one was for the Town of Springfield Sewer Lift Stations Project. She advised that every time the lift stations flood, they have to go in and do a lot of work to them, this was to elevate the lifts and water seal that brick at the bottom so they will not have that flooding issue again.

LPR NO. 20-127 MOTION was made by Randy Delatte and duly seconded by Jeff Ard to authorize the Parish President to enter contract negotiations and agreement with G.E.C., Inc. to perform engineering services for the Town of Springfield Sewer Lift Stations Project - a Hazard Mitigation Grant Program Project - FEMA-4277-DR-LA, Project #0096.

Upon being submitted to a vote, the vote thereon was as follows: YEAS: MR. MACK, MR. WASCOM, MR. DELATTE, MR. HARRIS, MR. MCMORRIS, MR. ARD, MR. KEEN, MR. GIRLINGHOUSE

Thereupon the chair declared that the Motion had carried and was adopted.

The chair addressed agenda item 11, "Public Hearing and Adoption of L.P. Ordinance No. 20-05, Servitude Revocation: John Cooper Fore/Old River Road". The chair declared that the Public Hearing for L.P. Ordinance No. 20-05 was open and called upon the Council clerk to read the ordinance by title.

The chair questioned if anyone had signed up for public input from the audience for this particular agenda item. Councilman Randy Delatte questioned if John Cooper was in the audience?

Councilman Garry Talbert responded and stated that he was not. He indicated that Mr. Fore was selling some property and is trying to get rid of a servitude before the sale of the property that was created a long time ago. He continued to advise that all requirements had been met and there were no outstanding issues. He explained where this property was located to Councilman Delatte and wished to make the motion.

The chair stated that if there were no other discussion, he wished to close the Public Hearing. Having no further input from the Councilmembers or the audience, the chair closed the public hearing.

LPR NO. 20-128 The following ordinance which was previously introduced in written form required for adoption at a regular meeting of the Livingston Parish Council on March 12, 2020, a summary thereof having been published in the Official Journal together with a notice of public hearing which was held in accordance with said public notice, was brought up for final passage on May 28, 2020 on Motion of Garry Talbert and seconded by R.C. "Bubba" Harris:

Upon being submitted to a vote, the vote thereon was as follows: YEAS: MR. TALBERT, MR. MACK, MR. WASCOM, MR. DELATTE, MR. HARRIS, MR. MCMORRIS, MR. ARD, MR. KEEN, MR. GIRLINGHOUSE

And the ordinance was declared adopted on the 28th day of May 2020. (The above and foregoing ordinance, upon final approval by the President, or the Council in case of veto by the President, shall be published in full in the Official Journal by the Clerk of the Council within fifteen (15) days of its adoption and shall be recorded in full in the Livingston Parish Council Ordinance Book No. 4).

The chair addressed agenda item 12a, "Adopt a resolution acknowledging that the Livingston Parish Council shall accept ownership of whatever rights the Louisiana Department of Transportation and Development may own of Eden Church Road and agrees to accept all duties, obligations, and responsibilities for the operation, maintenance, and future liabilities associated therewith, for its operation and maintenance as a parish route: and authorize the Parish President to execute any and all documents necessary to effect the transfer of the aforesaid described property at the proper time for State Project No. H.000466".

Mr. Sam Digirolamo, Planning and Department of Public Works Director, wished to explain as he had to Councilman Maurice "Scooter" Keen, whose district that this was in, that this was located on the north end of the roundabout, being a little neck on the road that the Parish has always maintained, but just needed to be put on paper that the Parish is taking it from the Department of Transportation and Development.

The chair requested if anyone had public input on this agenda item or had signed up on the public input sign up sheet. Having none, the chair acknowledged that Councilman Keen had made a motion to adopt the resolution.

STATE OF LOUISIANA PARISH OF LIVINGSTON L.P. RESOLUTION NO. 20-129 WHEREAS, The Livingston Parish Council is agreeable to accept ownership of whatever rights the State of Louisiana, through the Department of Transportation and Development ("Department"), may own in and to the following described properties and agrees to accept all duties, obligations, and responsibilities for the operation, maintenance, and future liabilities associated therewith, for its operation and maintenance as a parish route:

Shane Mack, Chairman; Sandy C. Teal, Council clerk

I hereby certify that the above and aforementioned resolution was adopted by the Livingston Parish Council in regular session convened on May 28, 2020 at which a quorum was present, given under my signature and seal of office this 1st day of June 2020.

The chair addressed agenda item 13a through c, "Planning Commission Recommendations" and called upon Mr. Sam Digirolamo to present these items.

Mr. Digirolamo addressed agenda item number 13a: a. Melvin & Kathleen Singleton Waiver - No. of Lots on Servitude (Section 125-12) Miller Road Section 38, T8S R5E Council District 8

Mr. Digirolamo explained that it was the recommendation of the Livingston Parish Planning Commission to deny the waiver on the number of lots on a servitude for Melvin and Kathleen Singleton. He advised that this was located in Councilman Randy Delatte's area.

The chair called upon Councilman Randy Delatte and asked how he felt about this. Councilman Delatte advised that his recommendation was the same as the Planning Commission's recommendation, to deny the waiver request.

The chair briefly went over the procedures for Public input once again and called upon the Council clerk to read the names from the sign-up sheet who had wished to speak on this agenda item.

Public input: Bob Christian, resident of Miller Road and elected spokesperson for the neighbors of this property; against Mr. Singleton's proposal and in full agreement with the Planning Commission's recommendation to the Livingston Parish Council Beverly Moore, resident of Miller Road: did not wish to speak as she was in agreement with Mr. Bob Christian Dewanna Christian, resident of Miller Road: did not wish to speak as she was in agreement with spokesperson, Mr. Bob Christian Russell Moore, resident of Miller Road: did not wish to speak, against granting waiver

LPR NO. 20-130 MOTION was made by Randy Delatte and duly seconded by Jeff Ard to accept the recommendation of the Livingston Parish Planning Commission to DENY the waiver on the number of lots on a servitude (Section 125-12) for Melvin and Kathleen Singleton located on Miller Road, Section 38 T8S R5E in Council District 8.

Upon being submitted to a vote, the vote thereon was as follows: YEAS: MR. TALBERT, MR. MACK, MR. WASCOM, MR. DELATTE, MR. HARRIS, MR. MCMORRIS, MR. ARD, MR. KEEN, MR. GIRLINGHOUSE

Thereupon the chair declared that the Motion had carried and was adopted.

Thereupon the chair declared that the Motion had carried and was adopted.
The chair addressed agenda item 17, "Discuss Riverscape Subdivision Roads - Randy Delatte" and called the names that signed up for Public input.

Public input: Michael Turner, resident of Peace Point Drive and vice-president of Riverscape Subdivision's Homeowners Association: spoke of the improvements and efforts that the residents and property owners have made regarding the deficiencies of the roads in the subdivision.
Vonnie Turner, Joe Crifra, Dan Bieber, Tommy O'Neill, Chris Brand, Alton Lindsey, David and Tanya Boudreaux: all signed up for Public input, but declined after Mr. Michael Turner spoke on their behalf.

Councilman Randy Delatte called on the chairman and requested to speak advising that it may be appropriate to remove this item from the agenda because he had put this on the agenda before Tuesday's committee meeting and we have a process. He explained that his intent was to get these roads accepted into the Parish maintenance system and the process dictates that we introduce the ordinance first, so he wished to remove it and take no further action at this time.

The chair declared that there would be no action on this particular agenda item and moved on to the next item.
The chair addressed agenda item number 14, "Adopt resolution to authorize a waiver of Section 110-1 (c) in regard to the eight (8') foot high solid wood fence requirement between conflicting land uses and allow a six (6') foot high solid fence to be granted to Joule, LLC on behalf of South Alexander Development I, LLC located on George White Road, Holden, LA in Council District 9" and advised that this was actually located in Council District 8.

Public input: Mr. Phillip Magnum, representative of Joule, LLC
The chair called on Councilman Randy Delatte who explained that what Joule is requesting is what DEMCO is doing all over the Parish. Joule is trying to security proof their property with a chain link fence and three strings of barbed wire. He clarified that if they would build a wood fence, it would only have to be on one section of the property and this company wished to fence the entire property. Councilman Delatte questioned why the waiver was needed in this instance.

Councilman Tracy Girlinghouse questioned if they used chain link fencing, what was the side facing property? Was it residential? Councilman Delatte stated that it was a wooded area and a road separates the property. He asserted that he was in favor of the waiver. Councilman John Wascom stated that if that was his motion, he wished to second it.

Councilman Girlinghouse stated that he wished to speak and finish his statement before. He wished for clarification that the neighboring properties were woods and not residential homes. Councilman Delatte explained that there were some trailers in the area, however, they were rentals and therefore considered commercial property, most being across the road, with the road separating the property, there was also a wooded area and then there was the interstate on the other side.

The chair also commented that the property is on both north and south side of James Chapel, right on the east side of the power line, and the power line was right in the width of the right of way, then there was some field, some woods and then residential property on one side and basically on the other side what he believed to be a commercial trailer park and some other residential property. The chairman advised that he had visited the property himself and was in total agreement for providing a security fence to prevent others from coming onto the property and felt that it was a good idea and what was best.

Councilman Talbert requested to ask Mr. Digirolamo some questions. He explained that he thought if you did not have a residential property butting that the fence requirement did not exist. He continued to clarify that if you have non-developed or woods that did not apply so you would not have to meet the fence requirement anyway.

Mr. Digirolamo stated that they were trying to enforce fences. This development had solar panels and they did not want anyone in there for security reasons. Councilman Talbert's question stemmed from the request for a waiver of an eight (8') fence to put a six (6') foot fence up with barbed wire on their own and the fact that there was no residential abutting it, he did not think that it would be required. The chair stated that there was some residential structure in the area. Mr. Digirolamo continued and explained that if there was a piece of property in between your residence and your commercial property, then it's not needed. Councilman Talbert asked if they had subdivided the high line out in the buffer, it would not have mattered. Mr. Digirolamo concurred.

Councilman Delatte wished to make an additional comment and stated that everywhere in his district, not everywhere in the Parish, DEMCO has substations all over, and they have the same fencing, not a wood fence anywhere, and residential property next to it.

Councilman R.C. "Bubba" Harris commented that wooden fences do not last that long, as to which other Councilmembers agreed.
The chair called for the vote as there was no more discussion on this issue.

LPR NO. 20-133
MOTION was made by Randy Delatte and duly seconded by John Wascom to authorize a waiver of Section 110-1 (c) in regard to the eight (8') foot high solid wood fence requirement between conflicting land uses and allow a six (6') foot high chain linked fence with three (3) strands of barbed wire above that will provide security for the entirety of the development to be granted to Joule, LLC on behalf of South Alexander Development I, LLC located on George White Road, Holden, LA in Council District 8.

Upon being submitted to a vote, the vote thereon was as follows:
YEAS: MR. TALBERT, MR. MACK, MR. WASCOM, MR. DELATTE, MR. HARRIS, MR. MCMORRIS, MR. ARD, MR. KEEN, MR. GIRLINGHOUSE

Thereupon the chair declared that the Motion had carried and was adopted.
The council clerk advised the chair that there was another gentleman that had signed up for Public comment on this agenda item, Mr. Paul Connelly. Mr. Connelly chose not to speak.

At the request of Councilman Gerald McMorris, the chair moved up agenda item number 24, "Waiver request of Section 125-27, "Driveway culverts and/or Subsurface Drainage", for James Holland, Jr. to allow subsurface drainage in a subdivision located at 27435 Gaylord Road, Walker, LA 70785 (Smokerise Subdivision, Rural property, Lot No. 3).

Councilman Gerald McMorris explained that several years ago, the Parish through a grant, put the drainage in, and the waiver request is to tie into what the Parish had done and finish off the rest of his property, which equals one hundred sixty (160') feet which goes to an open ditch with a four (4') foot culvert. He was in favor of granting the waiver because he would not be affecting anyone on that road. Councilman Talbert questioned if there were catch basins? Councilman McMorris confirmed this and stated that there were pictures for their review included in their meeting packets.

The chair acknowledged Mr. James Holland in the audience who had signed in for Public input on this agenda item. Mr. Holland did not wish to speak under Public input but asked to please approve it and make his wife happy. To which everyone in the Council chambers chuckled.

The chair advised that there was no more Public input and called for the vote.
LPR NO. 20-134
MOTION was made by Gerald McMorris and duly seconded by Randy Delatte to authorize the waiver request of Section 125-27, "Driveway culverts and/or Subsurface Drainage", for James Holland, Jr. to allow subsurface drainage in a subdivision located at 27435 Gaylord Road, Walker, LA 70785 (Smokerise Subdivision, Rural property, Lot No. 3) in Council District 6.

Upon being submitted to a vote, the vote thereon was as follows:

Thereupon the chair declared that the Motion had carried and was adopted.
The chair addressed agenda item number 27, "Discussion of requested action by Larry Chetnik to implement speed bumps on Dot Lee Drive located in Council District 6".

Councilman Gerald McMorris advised that he was contacted by Mr. Larry Chetnik about this issue, explaining that the road is approximately half a mile long and he is running into a lot of speeding, people doing doughnuts in the middle of the blacktop. Councilman McMorris further advised that he had requested more signage to be posted and called for the police to get involved.

Mr. Chetnik is requesting speed bumps to be installed. However, Councilman McMorris brought forth concerns regarding damaging fire trucks and rescue vehicles. He asked Mr. Chetnik to come to the meeting to discuss this, because he knew that they all had the same roads, and asked for the Councilmembers to listen to this man's concerns and then Councilman McMorris would move forward with what could be decided later.

Public input: Larry Chetnik, resident of Dot Lee: spoke of the traffic violations occurring
Councilman McMorris acknowledged his concerns in regard to the speed limit and as a Councilman, he wanted to make sure that he helped in getting the speed limit signs installed, get the documentation down, and action to contact Sheriff Ard to report the speeding.

The chair asked if there was a motion to take action on this item?
Councilman Randy Delatte recounted in previous years, the Council was always advised by their attorney that speed bumps were a liability issue and was not allowed.

Councilman Garry Talbert reported when they first came to the Council, they were told that speed bumps were illegal. He stated that speed bumps or speed humps could be designed in such a manner that does not damage, and it would slow down a school bus or fire truck just like a car, but they were not illegal. He described how the Council had tried to take up a design standard for this but they were unable to finish. His stated that it was his belief that the Council should take up designs for speed humps. This would require a traffic engineer to make recommendations where they should be placed. He encouraged the Council to pick this back up to create a design standard and a method for a road to be submitted, evaluated and see if it qualifies.

The chair allowed an open discussion.
Councilman McMorris requested that the Councilmembers give him time as he had been working with the neighbors on these issues and allow him to have the speed limit signs installed and give people the opportunity for awareness. He thanked Mr. Chetnik for coming to express his concerns and also thanked the Councilmembers for their attention and consideration.

The chair declared that there would be no action at that time and allow Councilman McMorris the time he needed to address this issue. He encouraged the Ordinance committee to bring this matter up for discussion and review.
The chair addressed agenda item 15, "Introduction of ordinance: Add Section 49-94, "Penalties for Violations", Article III - "Parking", Division 2. - "Regulations and Exceptions" and called upon Councilman Jeff Ard who explained that he had received numerous calls complaining about people parking on Parish roads blocking entrances, including fire trucks and ambulances. He continued and stated that school buses were not able to pass through, in addition to people parking in the T-turnaround and the school buses were not able to get turned around when they were trying to get kids picked up. He clarified that this is already illegal and there is an ordinance that mandates that you cannot park on the side of a Parish road, but it too hard for the Sheriff's office to enforce it because there is not a set penalty fee established. Councilman Ard had conferred with Mr. Digirolamo and also individuals with the Sheriff's office and they all concurred that a fine needed to be established and put in place.

The amount of the fine discussed was two hundred and fifty dollars (\$250.00), but Councilman Ard stated that was up for their consideration if the Councilmembers wished to discuss the amount of the penalty fee.
Councilman Garry Talbert advised that this ordinance had been discussed at the previous Ordinance committee and received a unanimous recommendation to be introduced and to add this wording to the current ordinance.

Councilman Tracy Girlinghouse wished to clarify that this problem was not just on Parish roads, but also in neighborhoods making it difficult for the Department of Works to perform their duties because there were cars parked in the way where they needed to work. He also felt that it was important to note that when cars are parked on the side of the road, you lose that line of sight between the yard and a house and you are not able to see if a child might dart out between. He also agreed with Councilman Ard that this is already against the law. He confirmed that the Ordinance committee members were all in agreement and recommended this ordinance for introduction.

Councilman John Wascom stated that he was also at the Ordinance committee meeting and wanted clarification of how the Sheriff's office would be ticketing violators and the process of sending that to a judge. He felt that the fee of two hundred and fifty dollars (\$250.00) was a fair price, but suggested using the words "up to" two hundred and fifty dollars (\$250.00) that would allow the judge to make room for some leeway based on the severity of the violation. The Councilmembers were in agreement and no one opposed this amendment.

Councilman Gerald McMorris expressed his concerns about safety issues. He discussed his experiences, which were out of the subdivision domain, and described where he had seen vehicles parked on the side of the road, in particular, Walker South, and when vehicles were coming around a curve, come upon a parked vehicle on the side of the road and they may run into the back of a car, or they may not be able to get around the parked car, furthermore backing up traffic. He stated that he was in support of the ordinance.

The following ordinance was introduced in proper written form and read by title, to wit:
L.P. ORDINANCE 20-06
AN ORDINANCE TO AMEND ARTICLE III, "PARKING", DIVISION 2, "REGULATIONS AND EXCEPTIONS" OF CHAPTER 46, "MOTOR VEHICLES AND TRAFFIC", OF THE CODE OF ORDINANCES OF LIVINGSTON PARISH, BY ADDING SECTION 46-94, "PENALTIES FOR VIOLATIONS", BY ESTABLISHING A PENALTY FEE OF UP TO TWO HUNDRED FIFTY DOLLARS (\$250.00) PER VIOLATION OCCURRENCE.

LPR NO. 20-135
MOTION was offered by Jeff Ard seconded by Garry Talbert to publish the ordinance by title in the Official Journal in accordance with the legal mandates and set a Public Hearing for Thursday, June 11, 2020 at the hour of six o'clock (6:00) p.m. at the Parish Council Chambers in the Governmental Building located at 20355 Government Boulevard, Livingston, Louisiana, at which time comments will be received on the proposed ordinance prior to a Council vote.

Thereupon the chair declared that the Motion had carried and was adopted.
The chair addressed agenda item number 16, "Introduction of ordinance: Amend Section 125-78, "Generally", Article III, "Commercial Developments", to allow previous materials for parking areas" and called upon Councilman John Wascom.

Councilman John Wascom explained that he had brought this to the Ordinance committee and commended them for their support and review.
He stated that every commercial business in the entire Parish is required by law that you will pour paved concrete or asphalt for your entire parking lot no matter what type business that you own and the Council must approve variances because it is not needed in all applications. The committee discussed the benefits of previous materials and how it keeps stormwater from running off into the nearby ditches allowing gasoline and oil from parking lots to travel there. He discussed his research and the suggestions made by the Ordinance committee members.

The recommended changes were to remove the wording that mandated paved parking, but commercial businesses must still meet the guidelines of the American Disability Act. They must also follow the state guidelines for the Fire Marshal's office regarding emergency vehicles and must have an apron at the entrance of the driveway onto the road so that gravel is not propelled when leaving the business.
The following ordinance was introduced in proper written form and read by title, to wit:
L.P. ORDINANCE 20-07
AN ORDINANCE TO RESCIND AND REENACT CHAPTER 125, "SUBDIVISION REGULATIONS," ARTICLE III, "COMMERCIAL DEVELOPMENTS", SECTION 125-78, "GENERALLY," OF THE CODE OF ORDINANCES IN AND FOR THE PARISH OF LIVINGSTON TO AMEND THE CRITERIA OF MANDATED PAVED SURFACES FOR COMMERCIAL DEVELOPMENTS.

Thereupon the chair declared that the Motion had carried and was adopted.
The chair addressed agenda item number 18, "Discussion and possible introduction of ordinance of modifying sewer ordinance" and called upon Councilman Randy Delatte.

Councilman Delatte deferred to Councilman Garry Talbert who explained that he had spoken with the Parish's legal counsel about this ordinance and they wished to introduce it as it is written, then the Council staff would meet with the Health Department, it will be evaluated and if certain modifications need to be made, they will be sent to our legal counsel and if he feels that it is too much of a modification from the introduction, the Council may introduce in two (2) weeks, if it's not too many modifications, then the Council will amend before the Public hearing and then vote on it. He questioned direction from Mr. Chris Moody to confirm that his statements were correct. Mr. Moody concurred.

Public input: Abby Crosby, resident of LA Highway 42: questioned recommendations made by the Health Unit
The following ordinance was introduced in proper written form and read by title, to wit:
L.P. ORDINANCE 20-08
AN ORDINANCE TO RESCIND AND REENACT CHAPTER 70, "UTILITIES," ARTICLE V, "SEWAGE DISPOSAL SYSTEMS", SECTION 70-265, "PERMIT REQUIRED," OF THE CODE OF ORDINANCES IN AND FOR THE PARISH OF LIVINGSTON TO AMEND THE GUIDELINES FOR REQUIRED SEWER PERMITS.

The chair addressed agenda item number 19, "Discussion and possible introduction of ordinance of criteria use for taking in roads" and called upon Councilman Randy Delatte who explained the purpose of the ordinance.

Public input: Keith Cacioppo, was listed on the sign-up sheet but not present
Councilman Tracy Girlinghouse wished to expound on the significance and mindset of the proposed ordinance.
Several Councilmembers discussed why they supported this ordinance and its intent.

The chair suggested that they needed to take some action and ask Mr. Moody over the next two (2) weeks if the ordinance needed additional review to ensure that when it comes to the division of property, developers will not be allowed to put in full blown subdivisions with improvements off of it. He requested if Mr. Moody would be able to advise them on this.

Councilman Delatte questioned if wording needed to be added that it is now therefore a Parish road.
The chair allowed an open discussion on the wording of "Parish road" and indicated that they would be relying on Mr. Moody for his help on this.

Public input: Dewanna Christian, resident of Miller Road: questioned if resident did not want the Parish to maintain the road and wanted to preserve their private ownership
The chair allowed an open discussion in regard to mandating a petition of one hundred percent (100%) of the ownership of the road before allowing it to become considered for the Type D road subset and requested Mr. Moody to explain that issue for the Councilmembers as well.

Public input: Eric Harrell, resident of Serene Acres: compared grinder pumps with this proposed ordinance
Brandon Browning, resident of LA Highway 16 in Denham Springs: wished to ask questions while trying to learn the process-how many roads does this include, and do we have the budget? He did not want answers from the Councilmembers but was trying to put himself in their shoes.

Councilman Maurice "Scooter" Keen and Councilman Jeff Ard chose to answer Mr. Browning's questions.
The chair allowed an open discussion that continued to address Mr. Browning's questions. Mr. Sam Digirolamo also offered input as well, as did Mr. Moody giving interpretation of state law regarding acceptance of roads after three (3) years of maintenance by the Parish.

The chair allowed a very, very lengthy open discussion with many suggestions and input.
The following ordinance was introduced in proper written form and read by title, to wit:

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF DENHAM SPRINGS STATE OF LOUISIANA

A RESOLUTION OF SUPPORT FOR MAYOR TO SIGN AND APPROVE DESIGN WAIVERS AND DESIGN EXCEPTIONS FOR TRANSPORTATION AND PUBLIC WORKS PROJECTS.

WHEREAS, the City Council is in support of allowing Mayor Gerard Landry, as Chief Executive Authority (not a designer), to sign and approve any and all design waivers or design exceptions as provided to DOTD minimum design guidelines for all transportation and public works projects; and

BE IT FINALLY RESOLVED, that this Resolution shall become effective immediately upon adoption by the City Council and approval by the Mayor.

Upon being submitted to a vote, the vote thereon was as follows:

YEAS: Amber Dugas, Lori Lamm-Williams, Robert Poole, Laura Smith, Jeff Wesley
NAYS: None

The proposed action as described above must be located in an area affecting or affected by a floodplain or a wetland because it is the only practicable alternative that will achieve the purpose and need for the project. In 1994 First Baptist Church reviewed three properties in their quest to find the right location for relocation and settled on the current property located at 27735 LA-16, Denham Springs, LA because of distance from the flood prone Amite River, access to Interstate 12, and proximity to the city of Denham Springs. The Church constructed a new facility following the Flood of 2016 and is now moving toward construction of a new educational classroom

building adjacent to the existing facilities. Because of growth over the past three years, the Church needed room for expansion and the Church's property affords room for that expansion with minimal impact on adjacent wetlands. The base flood elevation for the existing building is 43.0 feet and the proposed building's flood elevation is 45.10 feet. Relocating the educational classroom building from the existing building would create a great disconnect between the people and functions of the facility. The educational classroom building must be accessible to the auditorium, administration area, and gymnasium. The cost to relocate current facilities to a new location was enormous, far surpassing the value. Constructing the proposed educational classroom building adjacent to the existing facility at 27735 LA-16, Denham Springs, LA is the most practicable alternative. The proposed action will be performed in compliance with the National Flood Insurance Program and will conform to applicable state and local floodplain protection standards. The Church has received a permit from the United States Army Corps of Engineers (USACE) to perform work in accordance with the following terms and conditions: "clear, grade, excavate, and deposit fill and/or aggregate material to expand and maintain a church facility (First Baptist Church Denham Springs) to include parking lots, buildings, utilities, and drainage features, in accordance with drawings (attached to the permit - not provided in this notice) at 27735 LA-16 in Denham Springs, Louisiana, in Livingston Parish." The Church, at the direction of the USACE, also mitigated .5 acres of wetlands located at 27735 LA-16, Denham Springs, LA to satisfy requirements of USACE regulations for unavoidable impacts to jurisdictional wetlands. The Church purchased .5 acres of wetlands in the Gum Swamp Mitigation Bank in Livingston Parish, Louisiana on January 21, 2020. Further information regarding this project can be obtained from Billy McDaniel, Administrative Pastor of First Baptist Church, Denham Springs, LA by calling 225-480-7076 or by emailing billy.mcdaniel@firstdenham.com.

WHEREAS, at the meeting of the Denham Springs City Council, duly convened and held in accordance with law at 6:00 p.m. on the 9th day of June, 2020, at the regular meeting place of the said governing body, with the following members:
