

CACHUMA LAKE

FISHING REPORT

WEEK ENDING: March 8, 2020 WATER TEMPERATURE: Top Water 56 degree

Bass, Crappie and Catfish are still biting while the Trout continue to hide. Most are being brought in on Senkos and PowerBait worms. Texas rigs and drop shots are popular with some using a Wacky rig. Casting close to the reeds in the flats or the coves seems to be very effective. The water is starting to stratify, so we expect the fish to be moving to top water as the temperature continues to increase.
