The Loudoun County Department of Transportation and Capital Infrastructure (DTCI) is holding a Design Public Hearing on the Arcola Mills Drive-Belmont Ridge Road to Stone Springs Boulevard Project. This project consists of the design and construction of a bridge crossing the South Fork of Broad Run and a roundabout at the intersection of Arcola Mills Drive and Stone Springs Boulevard. Improvements also include widening the existing two-lane roadway to a three-lane undivided roadway with a continuous left turn lane. To enhance pedestrian connectivity, the project will construct a shared use path on the north side and a sidewalk to the south to complete missing gaps in the adjacent pedestrian networks.
