

CALF FEEDER POSITION

A 400 cow progressive dairy farm in Northeastern Iowa is looking to add a team member. We are looking to fill a full time position feeding calves in a team oriented atmosphere. This individual must have a passion caring for & managing dairy calves. Individual must also be responsible, dependent, motivated, able to follow protocols & procedures, have excellent verbal skills, and willing to think outside the box when needed. This job includes feeding calves in both the AM & PM daily with scheduled time off as well. The responsibilities include: feeding milk, water, grain, & hay; cleaning/sanitizing; bedding/cleaning calf pens; treatments; vaccinations; dehorning; moving animals; keeping excellent records; etc. The ability to operate a skid steer is a plus. However this is a trainable position for the right individual. You must be a caring/nurturing individual and able to lift at least 50#.

Pay is competitive and based on experience.

Very nice housing is also available and part of the benefits for this position. Our job is to work together to develop the next successful generation of farmers.

Please call 563-419-1317 for more information or to set up an interview.
