

*"Now that we have the robots,
we have the time to be better
managers, and we have the
time to make the barn as cow-
comfortable as possible."*

Comfortable Cows

The Lely Astronaut A5 robotic milking system helps you achieve optimal freedom of movement for your cows. With free cow traffic, cows decide when to eat, drink, relax or be milked, so you can focus on making your operation the best it can be.

The way to dairy.™
