TURN ON YOUR GAS FURNACE!

Follow these steps:

- ✓ Adjust your thermostat to the warm setting for 15 minutes. Listen for any unusual noises and check if warm air is coming from your registers.
- ✓ If there's a problem, please contact us at 608-291-5515 for a repair.
- ✓ If everything is working fine, consider scheduling a 21-point gas furnace tune-up to ensure optimal performance.

Call us today at 608-291-5515 for repair, service, and installation!
