## Fall in Love with Better Hearing

# 10 WARNING SIGNS OF HEARING LOSS

People seem to mumble more frequently.

You have difficulty understanding conversations when in a large group or crowd.

You experience ringing in your ears.

You hear, but have trouble understanding, all the words in a conversation.

You often ask people to repeat themselves.

You find telephone conversations increasingly difficult.

Your family complains that you play the radio or TV too loudly.

You have trouble hearing when your back is turned to the speaker.

You no longer hear normal household sounds, such as a dripping faucet.

You have been told you speak too loudly.
