

WISCONSIN'S FAVORITE SEED OUTLET FOR 49 YEARS

Jay-Mar, Inc.

SEED CORN
AND
SOYBEANS

HI-GEST 360 ALFALFA

- Low Lignin Technology
- Higher intake and digestibility for more milk/meat
- Delivered in elite genetics
- Better quality without changing harvest practices
- Harvest flexibility options

*Alfalfa from WL, LG, Jung and Public Varieties

*Clover, Grasses, Barley, Oats
and Pea & Oat Mixes too.

THIS IS THE YEAR TO GO FOR THE MAXIMUM YIELD

These innovative technologies can help you get there

VitaTRACE

A complete, fully-chelated secondary and micronutrient formulation. It provides a synergistic, comprehensive and plant-available blend to compliment liquid NPK.

AmiSorb®

Amisorb makes your fertilizer available to the plant longer; especially phosphate. Amisorb is patented, proven and registered in Wisconsin. Use with liquid or dry fertilizer.

ARISTA

Fortifies fertility programs by enhancing the soil and building a more robust root mass. Contains a proprietary blend of mycorrhizae, amino acids, humic acids and carbohydrates.
