

**Beckry®Tex textured coatings are a unique, low gloss option to the standard flat finishes typically used in manufacturing metal roofs. The distinctive appearance provided by the textured coating system increases the appeal of a project, creating an eye-catching masterpiece that is sure to attract the attention of architects and property developers alike!**

**Hixwood Metal Inc.**

manufactures 15 textured colors in three distinct profiles and 4 heavy duty gauges.

Call us for designing your own one-of-a-kind project.
