

**We back entrepreneurs
creating value with
digital health solutions.**

HEALTHX
VENTURES

Based in Madison, WI, home to global, market-leading innovative companies & talent, HealthX Ventures is a digital healthcare-focused venture capital fund. We support early/seed stage, high-growth companies in all areas of digital health, including teams who are making healthcare safer, more efficient and more affordable.

Among the companies we support are these local teams:

REDOX[^]

Platform offering interoperability between health technology developers and health systems.

[www.redoxengine.com]

 **ensodata**

Automating analysis of diagnostic studies for sleep apnea and other disorders with artificial intelligence.

[www.ensodata.io]

 **IMAGEMOVER**

Medical imaging software that integrates enterprise imaging and electronic health record systems.
