

OLMIX ANIMAL CARE RANGE OVERVIEW

Comprehensive & synergistic algae-based innovative solutions

The animal care range addresses critical farm management issues in the rearing phase, considering animal production as a whole. It offers solutions to improve the animal's environment and ensures inner balance.

GUT HEALTH target

MYCOTOXIN RISK

Algonite™ Algonite-G™

Wide spectrum activity

- Prevents toxins from damaging the gut epithelium
- Prevents toxins from impairing the immune system

IMMUNITY

Algoguard™

Strengthens natural defenses

- Maintains functional gut barrier
- Supports normal immune response

DIGESTIVE EFFICIENCY

mFeed+™

Boosts enzymatic activity in monogastrics

- Better feed digestion
- Allows to better balance gut flora

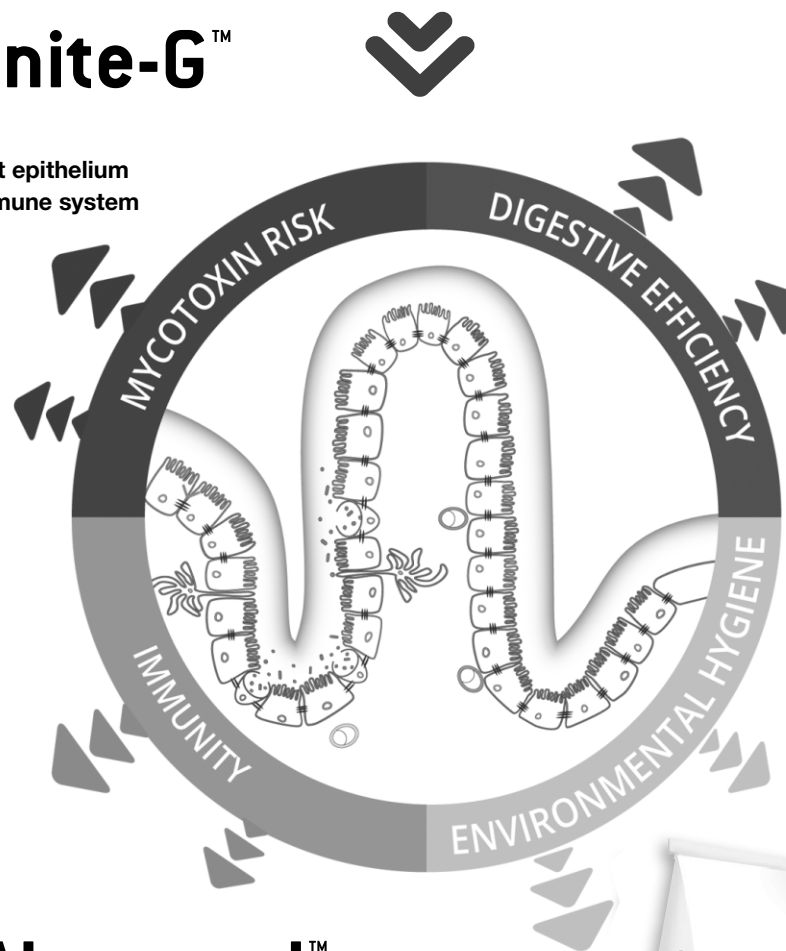

ENVIRONMENTAL HYGIENE

mistral™

Improves hygiene and welfare in the presence of the animals

- High drying capacities
- Reduces the development of bacteria

Thanks
to algae!
