TO ALL INTERESTED AGENCIES,
GROUPS AND PERSONS:

The above-named grantee has prepared an Environmental Assessment (EA) for the following project. The EA is on file at the Beaver Dam Municipal Building and is available for public examination and copying. Electronic files can be requested by email at webmaster@cityofbeaverdam.com.

Project Name: S. Spring Street Improvements 2020

Project Location: S. Spring Street (from E. Mill Street to Cooper Street), City of Beaver Dam, Dodge County, Wisconsin

Estimated Cost of Project: \$3,060,343

Nature/Purpose of Project: The City of Beaver Dam, Dodge County, Wisconsin will be committing Community Development Block Grant funds to undertake the project known as the S. Spring Street Improvements project. The proposed project includes the replacement of aged sanitary sewer, water main, storm sewer, service laterals, manholes, inlets, and appurtenances and roadway reconstruction including curb, gutter and sidewalks.

The UGLG has determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and, accordingly, the UGLG has decided not to prepare an Environmental Impact Statement (EIS) under the National Environmental Policy Act of 1969 (PL 91-190).

The reason for such decision is because the project is limited to the reconstruction of existing facilities. None of the agencies with who have been consulted noted any negative impacts and the project is expected to have only beneficial impacts on the

human environment.

All agencies, groups or individuals disagreeing with this decision are invited to submit written comments to the above address. Such written comments should be received on or before February 7, 2020. All such comments will be considered, and the UGLG will not request the release of federal funds or begin the project prior to such date.

On or about February 8, 2020, the UGLG will request the Division of Energy, Housing and Community Resources (DEHCR) to release Community Development Block Grant (CDBG) funds under Title I of the Housing and Community Development Act of 1974 (PL 93-383) as amended for this project.

The UGLG is certifying to DEHCR that and its chief executive officer, in his/her official capacity as Mayor, consent to accept the jurisdiction of the federal courts if an action is brought to enforce environmental review responsibilities, decision-making, and action; and that these responsibilities have been satisfied. Upon certification, the UGLG may use the CDBG funds, and DEHCR will have satisfied its responsibilities under the National Environmental Policy Act of 1969. DEHCR will accept an objection to the release of funds and certification only if (a) the certification was not executed by the chief executive officer or other officer of the UGLG approved by DEHCR; or (b) the UGLG's EA indicates omissions of a required decision, finding, or step. Objections must be prepared and submitted in accordance with 24 CFR 58, and may be addressed to the Division of Energy, Housing and Community Resources, Attention: Environmental Desk, P.O. Box 7970, Madison, WI 53707-7970.

Objections for reasons other than those stated above will not be considered by DEHCR. No objections received after February 24, 2020 will be considered by DEHCR. Rebecca Glewen, Mayor, 205 S. Lincoln Avenue, Beaver Dam, WI 53916
