MILLIONS OF AMERICANS STILL NEED CURES.

THANK YOU, SENATOR BALDWIN, FOR FIGHTING ON OUR BEHALF.

The United States leads the world in lifesaving medical research — and federal funding fuels its progress. On behalf of patients and families in Wisconsin and across the nation, we thank Senator Baldwin for her leadership in advancing a funding bill that helps deliver better treatments, earlier diagnoses, and long-awaited cures.

Because of Senator Baldwin's work, Republicans and Democrats alike have heard the call from American families and recognized that **cures can't wait**.
